BAD WORK OF STRIKERS.

Serious Outrages Committed by Turbulent Railway Men in Buffalo Yards.

Trains Burned and Other Damage Caused—Traffic Badly Blocked To-Day.

The Erie and Lehigh Railways Asking Protection from the Authorities.

BUFFALO, N. Y., Aug. 15.—Shortly after the fire among the Lehigh Valley cars had been subdued, an Erie train, consisting of 43 cars lying on the main tracks, was set on fire and up to one o'clock there were fifteen or twenty cars burned, with a likelihood that the entire train would be consumed. It is estimated that the loss will be $30,000. At one o'clock a message from the operator at Williams station said the fire had broken out at three different places in the yards and the indications were that serious damage would be done. As the fire was burning fiercely, nothing could be done by the engines attached to the trains, as the crews had been driven from their engines and threats were made if the men attempted to move them. The fire department was unable to do anything on account of the absence of hydrants in the neighborhood. They had two stock trains to leave for the east at 4 o'clock, but they were not moved as the strikers threatened to kill the crew if they left the yards. An official call was made upon the city and county yesterday afternoon by the Lehigh Valley for protection and last night the Erie followed suit.

BUFFALO, Aug. 15.—At 2 o'clock this morning the train of coal burned fiercely. Here and there at intervals of a few minutes, fire broke out all along the line and as many as a dozen different blazes were seen at the same time. At 2:45 o'clock the Erie passengers were brought into the city tired and disgusted. They were not molested by the strikers, but the ladies and children were considerably frightened by the rioting and bonfires of the freight cars. The strikers and their sympathizers are enjoying the result of their lawless work. Perched upon box cars they mock and jeer at the railroad men working at the blazing wrecks. At 4:45 a.m. the situation had improved somewhat and prospects were favorable.

Soon after daybreak the tracks were cleared and belated trains were endeavoring to get away, the switching being done by the train crews. The Erie officials estimate the damage done by the strikers at $30,000. The Lehigh loss is probably half that amount. About a dozen men were assaulted and injured by strikers. More trouble is apprehended to-day, but the sheriff is fully alive to the situation and has issued a call for men to come to his office and be sworn in as deputies. The sheriff said: "I intend to put down this riotous tendency. I will swear men in at once and send them where they can be made useful. I am having difficulty in getting men but shall get them. The police department has also been asked for aid by the Lehigh and the Erie. Superintendent Moranstein has announced his intention to swear in at least 150 citizens as specials to-day. Grand Master Sweeny said this morning he regretted the outbreak of lawlessness and condemned it, but he thought much of it had been committed by outsiders. The engineers of all trains have been ordered to run cautiously through the yards and keep a lookout for open switches.

At noon it was reported that 150 cars had been set on fire outside the city limits and were burning fiercely.

Knights of Labor Influence.

NEW YORK, Aug. 15.—The growing influence of organized labor is well illustrated in the widespread response to a circular recently issued by the Knights of Labor, and in which that organization warns its members and friends against a certain shoe manufacturer in Lynn, Mass., and requesting them to withhold their patronage from customers of the manufacturer in question on account of his antagonism to organized labor, and his refusal to pay the union scale of wages. Within a week from the publication of the notice nearly a hundred letters had been received by the secretary of the Knights of Labor from shoe dealers throughout the country stating that they were not aware of the trouble with the shoe manufacturer in question, and that they would refuse to purchase any more of his goods until the difficulty with his employees had been satisfactorily adjusted. As is customary in such cases, a full list of those dealers will be published in the official organ of the Knights, and the members of the organization requested to patronize them. This action has caused such a falling off in the sales of the boycotted manufacturer that he is now doing business under another name, but this course was soon discovered by the Knights and the facts will be widely advertised by them.

Montreal Elopers.

BOSTON, Mass., Aug. 15.—H. V. McCready is under arrest here with Margaret McCready, the widow of his brother, and their capture is due to the desire of his wife to be avenged for his deserting her a year ago. McCready, who has been an extensive boot and shoe manufacturer in Montreal, inherited a large fortune from his brother. He then began to neglect his wife and became dissipated. He soon after went to New York with her, but six months ago left her. He went back to Montreal, where he capped his wild career by eloping with his sister-in-law to Cincinnati, thence coming to Portland and ten days ago he reached this city. The couple were pursued by the wife, who located them in a Bowdoin street lodging house, where she was the means of having them taken into custody. The man is 40 and the woman 35. They had been living as man and wife. McCready at one time was president of the Cox Land Co., of New York. He claims he had taken his companion away for her health.

HER CARGO ON FIRE.

The Empress of Japan Has a Little Misadventure on Her Voyage.

SAN FRANCISCO, Aug. 15.—A dispatch to the Merchants Exchange this morning from London says that the Canadian Pacific steamship Empress of Japan, from Hongkong for Vancouver, B.C., put into Hakodado, Japan, with her cargo on fire. The fire was extinguished and part of the cargo was discharged, after which the steamer resumed her voyage.

CONFIDING WOMAN.

A Wife Withdraws a Charge of Non-Support Against a Penitent Husband.

NEW WESTMINSTER, Aug. 51.—Sing Kee, charged with attempted murder of Chee Gow, at Rivers Inlet, was committed to the assizes this morning.

The adjourned case of John McTavish, Mount Lehman, charged with the non-support of his wife, came up again in the district court this morning. Mrs. McTavish said that her husband had made fair promises, and she intended to give him a trial. The case was discontinued.

THE MYSTIC SHRINE.

The Creme de la Creme of Masonry—Ancient Arabic Order.

OMAHA, Aug. 15.—The star and crescent reign supreme in Omaha to-day in recognition of the assembling of the members of the Ancient Arabic Order of Nobles of the Mystic Shrine. It is the third, the last and the greatest of the national gatherings that have assembled here during the present summer. The Nobles of the Mystic Shrine represent the wealth and intellect of the land. They are the creme de la creme of the Masonic fraternity, none but Knights Templar or 32nd degree Masons being initiated into the mysterious rites of the order. It was only 11 years ago that William J. Florence, the celebrated actor, brought the degrees of the order to this country, having himself received them at Alexandria and Cairo. Yet so rapid has been its growth that, notwithstanding the restrictions upon its membership, special trains have been arriving every hour since Saturday night from every part of the country, until to-day it is calculated that there are well nigh 20,000 sons of the desert quartered in Omaha. Thousands of Knights who were at Denver last week are members of the order, and these and thousands who are not members are stopping over on their way home to participate in the festivities of the Mystic Shriners. The formal business of the gathering will be conducted by the members of the Imperial Council, who will be presided over in their deliberations by Illustrious Noble Sam Briggs, of Cleveland. There are 60 temples entitled to representation, and the Imperial Council will number from 175 to 200 delegates, hailing from every part of the world. The parade to be held this evening will be the distinguishing feature of the gathering. The uniform of the order consists of a scarlet fez and full dress suit. The procession will be headed by a band of Arabs in native costume. Following the street pageant there will be receptions by Governor Boyd and Mayor Bemis at the Paxton.

Matters at Homestead.

HOMESTEAD, Aug. 15.—There was no break this morning in the ranks of the non-union men employed by the Carnegie Steel Co. The locked-out men were led to believe that as soon as the gates at Fort Frick were opened this morning from 400 to 600 men would come out. Fully 200 strikers were on hand to welcome the deserters, but they failed to materialize, and up to noon not a man had come out of the mill. Fully two hundred came up on the Tide and the barges she had in tow on the first trip this morning, two-thirds of them being employees who went to Pittsburg Saturday night in order to spend Sunday at home. The rest were new men, merely laborers. The steamer Tide arrived at noon on her second trip to-day and had on board between 75 and 100 men.

To Telephone Under the Ocean.

BOSTON, Aug. 13.—The Herald has a dispatch from Paris which says: The Figaro to-day makes the important announcement that the difficulty to working long distance telephones under water has been overcome, and that it will be possible to converse as easily between Paris and New York as between Paris and Versailles. The discovery by which the great feat can be accomplished is the achievement of a Frenchman, M. Oillot, the Inspector of Telegraphs in this city.

A Professor Drowned.

BOSTON, Mass., Aug. 15.—George T. McLauchlin, an assistant professor in the Massachusetts Institute of Technology, was drowned while swimming off Lynn beach this afternoon. He was only 25 years of age and was extremely brilliant as well as popular. His home was in Malden.

A Cold Water Meeting.

TOPEKA, Kan., Aug. 15.—Prohibitionists from all over the Western States have gathered here to-day to attend the cold water meeting which will be held this evening. Ex-Governor St. John will be the speaker of the evening.

Found at last a cure for dyspepsia K. D. C., guaranteed to cure. To be had from your druggist, or Beckwith Thompson & King, agents for B. C. *

IN TROUBLE ON THE SEA.

A Ship and Twenty-five Men Reported Lost Between Greenock and Liverpool.

British Naval Manœuvres Stopped Because of the Repeated Misadventures.

Endeavors of the Brazilian Government to Suppress the Matto Grosso Rebellion.

LONDON, Aug. 15.—It is feared the ship Tracian with twenty-five men is lost with all on board, between Greenock and Liverpool. The Tracian was built for William Thompson of Nova Scotia. She started from Greenock to be towed by tug boat Sarah Joliff, bound for Liverpool, where she was to be rigged out. The crew of the ship consisted of twenty-five riggers. When the tug and the Tracian were about three miles from the Isle of Man during the night a squall came up and the ship capsized. The captain of the Sarah Joliff heard a cry from the Tracian and then a whirling and surging of waves as if the ship had gone down.

Another Naval Disaster.

LONDON, Aug. 15.—A correspondent of the Times aboard the warship Arethusa, lying off Belfast, says:—While the Arethusa was towing a torpedo boat the other night, there were suddenly heard, about two o'clock in the morning, shouts of "Stop ship," coming from the torpedo boat. It was found that the boat had got under the Arethusa's stern and had been struck by her propellor. The boat was then water-logged and sinking. Two men were overboard. All the crew turned out, buoys were lowered and the men rescued. The torpedo boat was afterwards bailed out and hoisted aboard. Owing to the disasters to the warships Naiad and Apollo, the admiralty authorities have abruptly stopped the naval manœuvres.

The Rebellion in Brazil.

NEW YORK, Aug. 15.—The Herald's correspondent at Guayaba, Matto Grosso, says that the Government troops under Gen. Ponce had joined those under Gen. Eubank, and were ordered into the interior of the province. There is no flour there, and provisions of all sorts are scarce, owing to the low water in the river. The revolutionary party committed many outrages, flogging some women night and day for five days for carrying cartridges. Gen. Ponce have received telegraphic instructions from Rio to shoot all the leaders of the revolution, especially Major Hannibal, who was the prime mover in the uprising.

Eccentric Colored Lady.

LONDON, Aug. 15.—Martha Ricks, an old colored lady, who was recently accorded an interview with the Queen in recognition of the long journey she had made from Africa for that express purpose, has recently enrolled herself as a member of the Salvation Army. She was present at a meeting of that organization a few days ago, and when Gen. Booth, who was speaking, happened to allude to her, she made her way to him, and after saying a few words to the audience, began to dance a jig on the platform, and did not desist until forcibly led from the room.

Killed by Lightning.

BERLIN, Aug. 15.—Banker Stein and his two sons were sailing on a yacht near Kopernick, an island formed by the Spree and Dame, about eight miles from Berlin, when a thunderstorm came up. Lightning struck the yacht, killing Stein and both his sons.

A Holy War.

BRUSSELS, Aug. 15.—Le Patriot publishes a letter from the Lake Tanganyika country, the writer of which declares that the Arab rising in the Congo state is in obedience to the proclamation of a "Holy War" from Mecca.

THE STREET FAKIR.

Gulls the Nanaimoites—The Condition of Business—Hotel Wilson, Etc.

NANAIMO, Aug. 15.—It is generally observed by the citizens of Nanaimo that as soon as one medical "fakir" makes his appearance he is sure to be followed by a dozen others. It is astonishing to notice how easily the public are gulled by these quacks, and how readily they hand their hard earned dollars over to obtain, as they are led to believe, some sure cure for an imaginary or other complaint. On Saturday night there were about 400 respectable persons collected around one of these individuals, who had no difficulty in making them believe the soda and borax he was selling was salt taken from the "salt springs". It is a shame that the city authorities permit men of this description to enter the city in order to gull the residents. The health officer endeavored to get the crowd dispersed, but the constable on duty could do nothing owing to the "fakir" having obtained a license for the occasion from the city clerk.

The steamer Comox sneaked in here at 4 a.m. this morning and landed her passengers without awaiting inspection. The vessel will be detained when she arrives from the north.

Mr. Pimbury has a few jars of preserved fruit among the many exhibits to be sent to Toronto which are highly commendable to the senders. Mr. Pimbury's own exhibits are by no means inferior to others in his care. If they are surpassed by other fruits then the senders will indeed have good cause to be surprised. Nanaimo is generally conceded to be a fruit-growing country, but this year it has not been so successful on account of the majority of the fruit trees having suffered from blight while the trees were in blossom. It is to be hoped next year the orchards will prove more fruitful.

Many complaints are being made about the dull times that are claimed to be prevailing at the present time, and many theories have been advanced as to its cause, but not one of them can be said to be correct. The New V. C. Co. is paying out about $70,000 for the previous part of this year, and considering they have 1200 men employed, including the Chinamen on top, it means an average wage of at least $60 for each white man, so that the money is circulated in larger quantity than it was two years ago when everything was then booming. It is fully expected in the course of another two months that business in Nanaimo will be as brisk as it was formerly, and complaints will then be forgotten.

Visitors to the Indian reserve yesterday were heard to express the surprise they felt to find it had been evacuated by the Indians, with only two exceptions. Two years ago one could not go far on the reserve before encountering a dozen dusky forms, but now they are rarely to be met with, and only the presence of an occasional canine proves that the habitations had been formerly occupied. Some few of the Indians who are employed in the mines have followed the taste of the white man and erected elaborate houses on the higher part of the reserve, and cultivate a garden around the dwelling, where they appear to live in peace and concord. It is generally conceded the majority of the Nanaimo Indians are fast dying off, and in a few more years they will become extinct.

Mr. J. Richards has completed the furnishing of the Hotel Wilson, and it is now the leading and most commodious hotel in Nanaimo. The interior has been fitted up in an elaborate manner in order to suit the taste of the more cultured traveling community. The rooms are as cozy as any person could wish for, and are furnished with electric light and call bells. Mr. Richards himself is well known among the commercial fraternity, and his superior knowledge of the wants of travelers has enabled him to provide every requisite. The necessity of an hotel of this description has been a long felt want, and as now that the smallpox scare is over in British Columbia it is expected the Hotel Wilson will be largely patronized. The building itself is claimed to be the finest in Nanaimo without exception.

The Odd Fellows' new building is undergoing something of a transformation, both in its interior and exterior. The plaster, which has fallen off, is being replaced by a wooden wainscott, which will prove more enduring and also be the means of keeping the halls in a more tidy condition. The exterior has been entirely renovated by the application of a beautiful coat of paint, and its appearance is more in harmony with other fine buildings. It is a pity that Nanaimo contractors do not pay more attention to plastering, as at present there is not one of the large brick buildings in the city but what needs to be replastered after being erected a few months.

DROWNING ACCIDENT.

An Indian Woman Loses Her Life by the Capsizing of a Canoe.

On Saturday evening an Indian fisherman working in the vicinity of the Race Rocks light house picked up a capsized canoe, to which was clinging Charlie, a Beecher Bay Indian, who was almost exhausted and could not speak for hours. He was taken home and cared for and told that in company with his wife he came to Victoria on Saturday morning to sell salmon. Disposing of his stock of fish he in some way secured a bottle of whiskey and the two started for home. He and his wife drank freely of the liquor and becoming intoxicated upset their canoe off Albert Head. The woman did not try to swim or grasp the boat and immediately sank. Charlie, who is a very powerful man, caught hold of the overturned boat, and pulling himself across it, managed to hold on till rescued. Charlie's wife belonged to the reserve here.

AN ELOPEMENT.

Tacoma and Seattle Join Hands for Life in Victoria.

Saturday afternoon in Victoria witnessed the concluding act in a rather sensational elopement that interested the whole Northwest on the other side of the line. The parties to the transaction, as the saying goes, were Charley Dolph, of Tacoma, a son of the man who has represented Oregon in the United States Senate for years, and Miss Armstrong, a well-known Seattle girl. The elopement proper took place about the middle of last week, and as can be imagined created a great sensation owing to the prominence of the parties. They fled south to Portland from Tacoma, but it appeared that when they were satisfied that the parents of Miss Armstrong would gladly welcome them home, they returned to Seattle. There the trip to Victoria, where it was thought a quiet marriage could take place, was arranged. Accordingly on Saturday morning a party of four, made up of the young couple anxious to be united forever, Mrs. Armstrong, mother of the girl, and a gentleman friend who concealed his identity, took the City of Kingston and arrived in the afternoon. A little later a license was procured at the office of Sheriff McMillan. The ceremony was then performed, but where and by whom is not yet known.

The entire party is quartered at the Driard. They will probably return home to-night. Mr. Dolph is a bright young business man of Tacoma, where he is connected with an electric power company. The young wife is petite and pretty. On their return to the Sound they will go to Tacoma to live.

PREMIER ABBOTT'S ILLNESS.

Too Much Hard Work and Worry From Vexed Questions Cause His Breakdown.

The Manitoba School Affair Sure to Give the Government Serious Trouble.

From Our Own Correspondent.]

OTTAWA, Aug. 6.—Premier Abbott had a rather bad attack last week, and his immediate friends, who are familiar with his condition of health, feel anxious about him. On Wednesday afternoon he was taken suddenly ill in his office, and Dr. Powell, who was also the late Sir John Macdonald's doctor, was sent for. When the doctor arrived he found Sir John Caldwell Abbott suffering from dizziness and prostrated with weakness. After some rest and restoratives the Premier was able to go to his chambers in a cab. It may be mentioned that he has no residence for the present in Ottawa, but he is staying at the Victoria chambers, while his family is summering at St. Anne's, where he has a fine residence. Absolute rest was prescribed by Dr. Powell. He instructed his patient to do no business for a week at least. Two days afterwards Sir John was at his office at 10 o'clock in the morning and transacted so much business that he had to take a late lunch. Since then he has been at work every day, attending an important meeting of the council this (Saturday) afternoon. It is said that the symptoms of the attack from which the Premier suffered seemed to be more like partial paralysis than anything else, and that this is the second time that he has been subjected to it. When last session he was attacked in the same way it was given out to the press that he was suffering from grippe. Nothing that the doctors or anybody else can say or do will keep him from hard work. He, however, avoids all other exciting matters, and as a consequence it is generally believed that he is suffering from heart failure. All invitations to dinners or to make public speeches he declines. He goes to bed at 9 o'clock every night, and he is consequently an early riser. While he is abie to do so he insists on doing official and general political work all day, no matter what the doctor says. It is also said that he is worrying himself badly over the present political situation. The Manitoba schools question and the retaliation embroglio are sources of great annoyance to him. They are rocks on which the Government ship is certain to founder if the Government blunders, and the fear is general here that Sir John Thompson, who is, after all, the Government, has already pledged more to his co-religionists than he is able to fulfil in so far as the Manitoba schools are concerned.

REMEDIAL LEGISLATION.

During the time that the Manitoba school bills were before the Government when the veto power could have been exercised, it is a well known fact that Sir John Thompson managed with the great influence he possesses with the Roman Catholic hierarchy to keep back all petitions to the administration praying for the exercise of disallowance. There was but one petition, that of the advisory board of education in the province, and which is generally spoken of as Archbishops Tache's petition, presented to the Government that justice be done to the minority in the province. It was shown by the Minister of Justice to the aggrieved parties that if the courts proved to be against them, then was the proper time for the consideration of such a petition. That is to say, if the courts in the administration of justice should decide against the minority then Parliament could step in and upset the decision. In effect he said:—"If the law is not interpreted as we want it, no matter what the majority may think, we will pass remedial legislation, making what was decided to be right and just by the court of last resort, to coincide with our way of thinking." Strange as the argument may seem, it had the desired effect, in not only preventing the Roman Catholic element from annoying the Government but in bringing to its support a solid vote, as the bye-elections well illustrated. The paying of the whole costs in the suit, and the promise of remedial legislation by the Minister of Justice, brought the votes and the influence of the hierarchy to Sir John Thompson, and had he managed to defeat the Manitoba Government with the people's money in the courts he would have been put up for canonization. Will he take the promised step and introduce remedial legislation next session? is a question which is generally asked here. That he has held out such hopes is certain, and that if he followed the bent of his own inclination he would like to do so, is equally certain, but the great majority is not of his way of thinking. Then will there be a collision? If so it will be found that he "cannot check Manitoba."

ANOTHER FARCE TO BE PLAYED.

The proposal that the Federal ministers shall ask the Supreme Court to decide whether they ought to grant or refuse the prayer of Archbishop Tache's petition is exceedingly absurd. Why, there is nothing to refer to the court. The act abolishing the separate school system has been pronounced constitutional by the highest court in the British Empire. But from the course the Government have pursued the petition of the archbishop and others has to be dealt with. It is for the Government to say what is to be done in the case, but let the farce of asking the Supreme Court to decide in a matter in which there can be no reference be abandoned as grotesque nonsense.

HOW BLAKE CAME TO GO TO IRELAND.

When the Hon. Edward Blake accepted the offer of the Irish Nationalists to contest a seat in Ireland for the Imperial Parliament, the statement was published and to some extent credited that he did so at the instigation of Mr. Gladstone. Since then the story has been generally credited and now it is revived and emphasized by the London Daily Chronicle.

Being convinced that the Gladstone branch of the Irish National League in Ottawa had something to do with the matter, your correspondent called on J. D. Grace, proprietor of United Canada, who is secretary of the branch in this city.

"Is it correct that it was at the instigation of Mr. Gladstone that Mr. Blake went to Ireland?"

"It is not correct," was the emphatic reply. "Whatever credit is due to the origin of the idea to invite Mr. Blake to enter the Imperial Parliament as a representative of an Irish constituency belongs to the Ottawa branch of the Irish National League. Those who worked together harmoniously, and I am glad to say successfully, to bring that about have no idea of correcting any statements to the contrary, being satisfied that their object has been attained, but since you put the question straight to me I am bound to give you a straight answer."

"Your branch must have had some standing with the McCarthyites?"

"We ought to. During the few years of our existence we sent between $6000 and $7000 to aid the Irish cause in Ireland. We assisted Mr. Parnell just as loyally as we do Justin McCarthy today."

"And as to Mr. Blake?"

"Well, it came about in this way: Two or three members of the league met together and talked the matter over. The name of Blake was familiar in the homes of all our Irish people. They were satisfied of his earnestness in his advocacy of Home Rule, and were more than convinced of his great ability and undoubted eloquence. We first ran over the political situation in Canada and came to the conclusion that Mr. Blake was not likely to enter the domain of politics, considering the stand he took, for some time to come. We then agreed that it would be a grand move in the interest of Home Rule in Ireland to induce Mr. Blake to enter the political field. His practical knowledge of Home Rule in Canada would be of incalculable benefit to the Irish party. It was then decided to write Mr. Justin McCarthy and open up the question with him."

"And did you get an answer?"

"We did. Mr. McCarthy wrote at once agreeing with our proposition, but at the same time expressing his fears that Mr. Blake would not care to go to Ireland, owing to the internal troubles which were then annoying the country over the attitude of some of the Parnellites. But Mr. McCarthy said that if he would consent he would be assured of a safe constituency and every other encouragement."

"And what was the next step."

"We of course wrote Mr. Blake persuading him to go as well as replying to Mr. McCarthy and asking him to invite Mr. Blake. In addition to this we wrote Hon. David Mills to intercede with Mr. Blake on our behalf. Some of us could approach Mr. Mills with more ease than Mr. Blake on a matter of this kind. I know that he laid our views before Mr. Blake. At any rate while we were strongly urging Mr. Blake to accept the offer which was about to be made him, there came from Messrs. McCarthy, O'Brien, Dillon and Healy the telegram which everybody is now aware of and which we knew then was to be sent. The rest you know. I might just say that the brief stay of Mr. Blake at Murray Bay before sailing was employed in reading up the Irish question from the latest works in the parliamentary library and which no doubt has aided him in his election experience since in the old country. There was, however, very little that he needed to know on this point."

SLABTOWN.

"Clear Havana Cigars."

You may be satisfied with the brands of tobaccos you have been using for years. Grant it; that you are satisfied. As there is always room for improvement, we ask you to try our OLD CHUM PLUG, or cut smoking tobacco, and we believe you will be BETTER satisfied. In any case a trial won't hurt you. Don't delay upon the order of your buying, but buy at once.

New Trial.

SAN FRANCISCO, Aug. 15.—Sidney Bell's new trial for the murder of young Jacobson, whom he killed on the 16th of February, 1890, in an attempt to rob him on the street, began to-day. The new trial was granted as a result of the statements of Charles Schmidt, who subsequently committed suicide in prison, and who said that the evidence of Campbell, one of the leading witnesses for the prosecution, was false, and that he himself had committed perjury in the case at the suggestion of the San Francisco police.

Mr. L. B. Hamlen,

Of Augusta, Me., says: "I do not remember when I began to take Hood's Sarsaparilla; it was several years ago, and I have found it does me a great deal of good in my declining years.

I am 91 Years

2 months and 26 days old, and my health is perfectly good. I have no aches or pains about me.

Hood's Sarsaparilla

regulates my bowels, stimulates my appetite, and **helps me to sleep well.** I doubt if a preparation ever was made so well suited to the wants of **old people.**" L. B. HAMLEN, Elm Street, Augusta, Me., Sept. 26, 1891.

HOOD'S PILLS are a mild, gentle, painless, safe and efficient cathartic. Always reliable.

PASSENGERS.

KASLO CITY

KOOTENAY LAKE.

SINCE the opening of navigation many hundreds of people have poured into Kaslo City. The discoveries of last fall have proved as rich as expected, and many new ones, fully as important, have been located this spring. The Kaslo-Kootenay Land Company have built roads and trails into the important mines, and surveys have been completed for the railway. The contract for clearing the right-of-way for the latter will be let in a few days. Many substantial buildings have been erected so far this year, and a large number will be begun immediately, including a handsome hotel.

A large number of business and residential lots have been sold, and many have changed hands at a good profit. In a short time the Company will advance the price of all lots.

Now is the Time to Invest.

For prices, terms and full particulars, apply to the undersigned.

CANADIAN NOTES

News by Mail and Wire from all Parts of the Dominion.

The Dominion Temperance Alliance convention will be held in Montreal in September.

Canon O'Meara, of Winnipeg, is spoken of as the coming rector of the Church of Ascension in Hamilton.

Geo. T. Beard, formerly a Toronto alderman, is dead in Montreal, where he was engagee in the South American trade.

A special London cable to the Star says the Grand Trunk board announce dividend of 2¼ per cent. per annum on the guaranteed stock for the past six months.

A young Swedish girl threw herself from a two-storey window in Winnipeg, to escape from a room whither she had been lured by two young sports of the city.

The country to the north of Belleville has been so flooded by rains that streams have left their banks, and rendered public roads impassable by washouts.

Andrew Twedie, a prominent Montrealer, was knocked down the hold of one of the Allan liners, and died at the general hospital at night. Deceased leaves a wife and two children.

Col. John Cole, formerly for many years a resident of St. Thomas, died in New York, aged 69. He commanded the St. Thomas cavalry troops on the frontier during the Fenian troubles of 1866.

Three inches of rain fell on Friday over a great part of New Brunswick. The St. John river is rising rapidly and already is covering the low lands and islands. This is bad for hay, which is late in those parts.

Spencer, superintendent of the eastern division of the Canadian Pacific Railway, says that the westward traffiie this season is enormous, being far beyond any season since the line was completed and surpassing all anticipations.

The Dominion Council of the Royal Templars of Temperance has concluded its session and re-elected A. M. Featherstone, of Montreal, Dominion councillor. The order is reported to be in a splendid condition, financially and numerically.

James Dennis, of Caledonia, descended into a gas well, to rescue another workman, who had been overcome by sulphur gas, and was himself overcome. When taken from the well Dennis was dead The doctors brought the other man round.

At the Manitoba Rifle association matches the 91st battalion won the association prize, and Lieut. Mitchell of the 90th made the highest individual score. Sergt. McKay of the 90th won the governor-general's silver medal, and Private Fleming of the 91st, the governor general's bronze medal.

The Globe's Quebec correspondent says General Herbert, who, in company with Hon. Mackenzie Bowell, minister of militia and defence, are at present inspecting the fortification of Quebec, has been hearn to express his conviction that to place out militia in a proper state of efficiency is a most difficult task.

Mayor Lucas, of Calgary, presented a bill for $2407 to the Northwest Assembly for expenses incurred by that town in suppressing the smallpox outbreak. The assembly will likely pay the account, as the energy of the Calgary authorities in coping with the disease is greatly admired, and it certainly saved other portions of the Territories from heavy expenses. No new cases are reported anywhere for three weeks.

The anniversary of the relief of 'Derry was celebrated in the usual manner in Ontario by large demonstrations being held at Owen Sound, Lindsay, Norwood, Welland and other places. At Norwood Grand Organizer Newman in a forcible speech, referring to the Manitoba school question, said he wore uniform in defence of the Dominion during the Northwest rebellion, but he would wear one on the side of Manitoba against the Dominion if the rights of that province were disregarded. The sentiment was loudly applauded.

At the meeting of the Dominion Cabinet held in Montreal to consider the question of the canal tolls the Government decided to make a proposition to the United States Government assuring it that Canada was desirous of having the most friendly relations, and that in order to avoid all difficulties the rebate on grain passing through the St. Lawrence will be withdrawn at the end of the present season of navigation. An effort will then be made to have a conference between the two Governments, so that all differences may be arranged. The Government is anxious to appease the United States Government, and at the same time to act fairly with grain men who have made large contracts for the present season on the basis of the rebates.

LET US REASON TOGETHER.

Let us reason together for the benefit of the baby, in the hope that some good may be accomplished. Baby requires regular dieting in order to grow and remain healthy.

Cow's milk, when perfectly pure and fresh, contains more solids than mother's milk; it is too heavy and rich for the little, weak stomach, and sugar must always be added to bring it to the sweetness of breast milk. Thus we have a food altogether unsuited for perfect nutrition. Common diluted, stale and sour milk, is poison—death to any infant in the heat of summer. Sensible mothers are aware of these facts, and regularly use wholesome Lactated Food for infants. The composition of this Food, readers it safe and satisfying at all seasons of the year. The little one thrives fast when fed with it, and sleeps well. There is no necessity for purging medicines to remove constipation; and those terrifying complaints that bring death to thousands of helpless ones, are all avoided. Give Lactated Food one trial, dear mother, and you will be convinced that you must use it ever after.

THE LEDGES ARE RICH.

Satisfied Miners in the Kootenay District—Kaslo Progress.

Special Correspondence of the TIMES.]

KASLO, Aug. 8.—J. W. Martin, on the Ruby Silver, the north extension of the Maude E., one of the Noble Five claims, has done $50 worth of work. He has the ledge in five places, and finds high grade galena. This is thought to be a continuation of the Noble Five ledge.

On a claim parallel to the Ruby Silver on the east Tom McGuigan and Jenkins have with four days' work, uncovered a ledge similar to that on the Ruby Silver. The ledge is five feet wide, of which two feet is mineral; assay value $200 per ton.

The Jackson claim is a discovery about a month old, situated on Jackson creek, a tributory of the Kaslo. The claim is about three miles south of the main trail. This claim shows a ledge ten feet wide, of which two feet is solid steel galena and carbonates, with an average assay value of over $100. Wm. Moules has an extension east of the Jackson. He reports having got on a ledge evidently the same as that on the Jackson. The distance between the two workings is fully 1000 feet, and if continuous this ledge alone would be enough to make the fortune of the camp.

In the meantime there is not a symptom of failure on the part of any claim upon which work has been done. The suspicion that the prospects might be what are called blanket ledges has not been verified in one single instance so far, while many of the claims that were located purely on chance are showing up as ore producers, under the developing influences of the small amount of labor that has so far been expended upon them.

In Kaslo there are indications of renewed activity. The water has fallen in the creek, and the bridge on 3rd street is to be put in place at once. The blast of the whistle on the new sawmill was heard on July 30th and at intervals since and regular work is to begin to-morrow. A site has been purchased for a hotel nearly opposite the site of the Noble 5 hotel, and the construction of the building is to begin at once.

It is now reported on pretty good authority that the Nelson and Fort Sheppard road will immediately get under way, that the Spokane and Northern will be extended to the boundary and preparations made to put in the bridge on the Pend' Oreille this winter. People who think they would like to see a boom had better be getting into the Kootenay lake district.

MEN ADMIRE BEAUTY IN WOMEN.

HOW WOMEN MAY BECOME HEALTHY AND BEAUTIFUL.

People often wonder why some lady friend is not looking herself. Men who admire beauty in women are the first to detect change and decay. They look with pain and astonishment on the pale face, the hollow cheeks and the sunken eyes surrounded by dark circles. They note the feeble and faltering step, lack of strength and elasticity, want of spirit and ambition.

These are all alarming and dangerous signs, and plainly indicate the existence of disease in some form. The troubles mentioned above are usually caused by indigestion, dyspepsia and impure blood, and demand instant attention if women desire to maintain the beauty which a kind Creator had given to them.

Many of the healthiest women in Canada, to-day, owe their good health to Paine's Celery Compound. This valuable and unfailing medicine quickly removes every obstruction and difficulty. It causes the life-stream to course freely and purely throughout the body; it corrects digestion; it removes the intolerable enemy dyspepsia; it brings the blush of health to the faded cheek, and gives to the whole system a new vigor.

Paine's Celery Compound is truly woman's best friend in her hour of suffering, and will accomplish more for her than all the efforts of physicians.

What We Want.

We want everyone who has a prescription to be filled to bring it to us. The purest medicines and the utmost care in preparation are the inducements we offer. Cochrane & Munn, prescription druggists, corner of Yates and Douglas streets. Electric night bell.

A BY-LAW

For raising the sum of $300,000 for Sewerage purposes.

WHEREAS it is expedient to raise the sum of $300,000 for the purpose of sewerage works within the area in the City of Victoria, bounded by the northerly side of Beacon Hill Park, Victoria Harbor, the northerly side of Chatham street, the easterly side of Blanchard street, the northerly side of Pandora avenue and the easterly side of Cook street, by constructing common sewers and branch sewers o the side lines of the streets wherever deemed expedient within such area.

AND WHEREAS it will require the sum of $15,479 to be raised annually by special rate for the payment of the said debt and interest as hereinafter mentioned.

AND WHEREAS the amount of the whole ratable real property of the said Corporation of the City of Victoria, according to the last revised assessment roll, is $17,563,148.

AND WHEREAS it will require an annual special rate of 9-10 of a mill in the dollar for paying the interest and creating an equal yearly sinking fund for paying the principal of the said intended debt.

AND WHEREAS it is intended to reduce the general rate so that the said special rate shall not increase the total rate of taxation.

BE IT THEREFORE ENACTED by the Council of the Corporation of the City of Victoria as follows:

Sec. 1. It shall be lawful for the Mayor of the Corporation of the City of Victoria to borrow upon the credit of the said Corporation by way of the debentures hereinafter mentioned, from any person or persons or body or bodies corporate who may be willing to advance the same as a loan, a sum of money not exceeding in the whole the sum of $300,000 currency or sterling money, at the rate of $4.86⅔ to the pound sterling, and to cause all such sums so raised or received to be paid into the hands of the Treasurer of the said Corporation for the purpose and with the object hereinbefore recited.

Sec. 2. It shall be lawful for the said Mayor to cause any number of debentures to be made for such sums as may be required, not exceeding, however, the sum of $300,000 either in currency or sterling money (at the rate of $4.86⅔ to the pound sterling), as may be required, each of the said debentures being the amount of $1000 or it sterling equivalent at the rate aforesaid, and all such debentures shall be sealed with the seal of the said Corporation and signed by the Mayor thereof.

Sec. 3. The said debentures shall be made payable in 50 years from the date hereinafter mentioned for this by-law to take effect either at the office of the treasurer of the said Corporation, City Hall, Victoria, or at the office of the Bank of British North America in London, England, and shall have attached to them coupons for the payment of interest.

Sec. 4. The said debentures shall bear interest at the rate of 4½ per centum per annum from the date thereof, which interest shall be payable half-yearly either at the office of the said treasurer, or at the office of the Bank of British North America in London, England.

Sec. 5. For the purpose of forming a sinking fund for the payment of the said debentures and the interest to become due thereon an equal special rate of 9-10th of a mill in the dollar shall in addition to all other rates be levied and collected in each year upon all ratable real property within the said City of Victoria during the continuance of the said debentures or any of them.

Sec. 6. This By-Law shall before the passage thereof receive the assent of the electors of the said Corporation in the manner provided for by the Municipal Act, 1892, and shall take effect on the 26th day of August, 1892.

Sec. 7. This By-Law may be cited as the "Sewerage Loan By-Law, 1892."

Passed the Municipal Council the 8th day of August, 1892.

TAKE NOTICE

That the above is a true copy of the proposed by-law upon which the vote of the Municipality will be taken at Burnes' building, Bastion Square, for the Centre Ward; at the City Hall, corner Pandora and Douglas streets, for the North Ward, and at the building situated on the east side of Government street, between Broughton and Courtney streets, and known as No. 27, for the South Ward, in the City of Victoria, on Monday, the Twenty-Second Day of August instant, and that the poll will be kept open between the hours of eight o'clock a.m. and four p.m.

Victoria, B. C., Aug. 4, 1892.

A BY-LAW

To enable the Corporation of the City of Victoria to raise the sum of $75,000 for Board of Health purposes.

WHEREAS it is expedient to raise a sum of money for the purpose of providing a fund for Board of Health expenses incurred and to be incurred by the Corporation of the City of Victoria.

AND WHEREAS for the purpose aforesaid it is intended to raise by way of loan upon the credit of the City the sum of $75,000.

AND WHEREAS it will require the sum of $3867 to be raised annually by special rate for the payment of the said debt and interest as hereinafter mentioned.

AND WHEREAS the amount of the whole ratable property of the said Corporation of the City of Victoria according to the last revised assessment roll, being for the year 1891, was $17,563,148.

AND WHEREAS it will require an annual special rate of 9-40 of a mill in the dollar for the payment of the interest and creating an equal yearly sinking fund for paying the principal of the said interest debt according to the municipal Act, 1892.

AND WHEREAS it is intended to reduce the general rate so that the said special rate shall not increase the total rate of taxation.

BE IT THEREFORE ENACTED by the Council of the Corporation of the City of Victoria as follows:

Sec. 1. It shall be lawful for the Mayor of the Corporation of the City of Victoria to borrow upon the credit of the said Corporation by way of the debentures hereinafter mentioned, from any person or persons or body or bodies corporate who may be willing to advance the same as a loan, a sum of money not exceeding in the whole the sum of $75,000 currency or sterling money at the rate of $4.86⅔ to the pound sterling, and to cause all such sums so raised or received to be paid into the hands of the Treasurer of the said Corporation for the purpose and with the object hereinbefore recited.

Sec. 2 It shall be lawful for the said Mayor to cause any number of debentures to be made for such sums as may be required, not exceeding, however, the sum of $75,000, either in currency or sterling money (at the rate of $4.86⅔ to the pound sterling) as may be required, each of the said debentures being of the amount of $1000 or its sterling equivalent at the rate aforesaid, and all such debentures shall be sealed with the seal of the said Corporation and signed by the Mayor thereof.

Sec. 3. The said debentures shall be made payable in fifty years from the date hereinafter mentioned for this By-Law to take effect either at the office of the Treasurer of the said Corporation, City Hall, Victoria, or at the office of the Bank of British North America in London, England, and shall have attached to them coupons for the payment of interest.

Sec. 4. The said debentures shall bear interest at the rate of 4½ per cent. per annum from the date thereof, which interest shall be payable half-yearly either at the office of the said Treasurer or at the office of the Bank of British North America in London, England.

Sec. 5. For the purpose of forming a sinking fund for the payment of the said debentures and the interest to become due thereon an equal special rate of 9-40 of a mill in the dollar shall in addition to all other rates be levied and collected in each year upon all ratable property within the City of Victoria during the continuance of the said debentures or any of them.

Sec. 6. It shall be lawful for the Mayor of the City of Victoria to appoint or direct the treasurer aforesaid to pay out of the said sum so raised or obtained, and to pay into the credit of the municipal revenue for the year all expenses or sums of money which have been paid out of the said revenue, or out of money obtained under the authority of the "Annual Loan By-Law, 1892," or any other by-law of a like effect, on account of or for expenses or payments made on account of or for liabilities incurred by the Local Board of Health of the said Municipality or for payments or liabilities sanctioned or recognized by the said Board.

Sec. 7. This By-Law shall before the final passage thereof receive the assent of the electors of the said Corporation in the manner provided for by the Municipal Act 1892, and shall take effect on the 26th day of August, 1892.

Sec. 8. This By-Law may be cited as "The Board of Health Expenses By-Law, 1892."

Passed the Municipal Council the 3rd day of August, 1892.

Returned by the Mayor for amendment 8th August, 1892.

Reconsidered and amended by the Council 8th August, 1892.

TAKE NOTICE.

That the above is a true copy of the proposed by law upon which the vote of the Municipality will be taken at Burnes' building, Bastion Square, for the Centre Ward; at the City Hall, corner of Pandora and Douglas streets, for the North Ward, and at a building situated on the east side of Government street, between Broughton and Courtney streets, and known as No. 27, for the South Ward, in the City of Victoria, on Monday, the twenty-second day of August instant, and that the poll will be kept open between the hours of eight o'clock a.m. and 4 p.m.

WELLINGTON J. DOWLER,
C.M.C.

City Clerk's Office,
Victoria, B. C., August 4th, 1892.

A BY-LAW

For Raising the Sum of $60,000 to Provide for and Improve the Public Electric Lighting of the City of Victoria.

WHEREAS it is expedient to extend and improve the present Public Electric Lighting of the City of Victoria and for that purpose to raise by way of loan upon the credit of the said City the sum of $60,000.

And whereas it will require the sum of $3,094 to be raised annually by special rate for the payment of the debt intended to be hereby created and the interest thereon.

And whereas the amount of the whole ratable real property of the said City according to the last revised assessment roll is $17,563,148.

And whereas it will require an annual special rate of 7-40 of a mill in the dollar for paying the interest and creating an equal yearly sinking fund for paying the principal of the said intended debt.

And whereas it is intended to reduce the general rate so that that said special rate shall not increase the total rate of taxation.

Be it therefore enacted by the Mayor and Aldermen of the Corporation of the City of Victoria as follows:—

Sec. 1. It shall be lawful for the Mayor of the Corporation of the City of Victoria to borrow upon the credit of the said Corporation by way of the debentures hereinafter mentioned from any person or persons or body or bodies corporate who may be willing to advance the same as a loan a sum of money not exceeding in the whole the sum of $60,000 currency or sterling money at the rate of $4.86 ⅔rds dollars to the pound sterling, and to cause all such sums so raised or received to be paid into the hands of the Treasurer of the said Corporation for the purpose and with the object hereinbefore recited.

Sec. 2. It shall be lawful for the said Mayor to cause any number of debentures to be made for such sums as may be required not exceeding however the sum of $60,000 either in currency or sterling money (at the rate of $4.86 ⅔rds dollars to the pound sterling) as may be required, each of the said debentures being of the amount of $1,000 or its sterling equivalent at the rate aforesaid and all such debentures shall be sealed with the seal of the said Corporation and signed by the Mayor thereof.

Sec. 3. The said debentures shall be made payable in 50 years from the date hereinafter mentioned for this By-Law to take effect either at the office of the Treasurer of the said Corporation, City Hall, Victoria, or at the office of the Bank of British North America, London, England, and shall have attached to them coupons for the payment of interest.

Sec. 4. The said debentures shall bear interest at the rate of 4½ per centum per annum from date thereof which interest shall be paid half-yearly either at the office of the said Treasurer, or at the office of the Bank of British North America in London, England.

Sec. 5. For the purpose of forming a sinking fund for the payment of the said debentures to become due thereon an equal special rate of 7-40 of a mill in the dollar shall in addition to all other rates be levied and collected in each year upon all ratable real property within the said City of Victoria during the continuance of the said debentures or any of them.

Sec. 6. This By-Law shall before the passing thereof receive the assent of the electors of the said Corporation in the manner provided by the Municipal Act, 1892, and shall take effect on the 26th day of August, 1892.

Sec. 7. This By-Law may be cited as the "Electric Lighting Loan By-Law, 1892."

Passed the Municipal Council the 3rd day of August, 1892.

TAKE NOTICE

That the above is a true copy of the proposed by-law upon which the vote of the Municipality will be taken at Burnes' building, Bastion Square, for the Centre Ward; at the City Hall, corner of Pandora and Douglas Streets, for the North Ward, and at the building situated on the east side of Government Street, between Broughton and Courtney Streets, and known as No. 27, for the South Ward, in the City of Victoria, on Monday, the Twenty Second Day of August instant, and that the poll will be kept open between the hours of eight o'clock a.m. and four p.m.

WELLINGTON J. DOWLER,
C. M. C.

City Clerk's Office,
Victoria, B. C., Aug. 4, 1892. aug4

A BY-LAW

To enable the Corporation of the City o Victoria to raise the sum of $100,000 for the acquisition, establishment and maintenance of a City Hospital, Land and Buildings in connection therewith.

WHEREAS it is expedient to raise a sum of money for the purpose of the acquisition, establishment and maintenance of a City Hospital, land and buildings in connection therewith.

AND WHEREAS for the purpose aforesaid it is intended to raise by way of loan upon the credit of the city the sum of $100,000.

AND WHEREAS it will require the sum of $5157 to be raised annually by special rate for the payment of the said debt and interest as hereinafter mentioned.

AND WHEREAS the amount of the whole ratable property of the said Corporation of the City of Victoria according to the last revised assessment roll, being for the year 1891, was $17,563,148.

AND WHEREAS it will require an annual special rate of three-tenths of a mill in the dollar for the payment of the interest and creating an equal yearly sinking fund for paying the principal of the said intended debt according to the Municipal Act, 1892.

AND WHEREAS it is intended to reduce the general rate so that the said special rate shall not increase the total rate of taxation.

BE IT THEREFORE ENACTED by the Council of the Corporation of the City of Victoria as follows:

1. It shall be lawful for the Mayor of the Corporation of the City of Victoria to borrow upon the credit of the said Corporation by way of the debentures hereinafter mentioned from any person or persons or body or bodies corporate who may be willing to advance the same as a loan a sum of money not exceeding in the whole the sum of $100,000 currency or sterling money at the rate of $4.86⅔ to the pound sterling, and to cause all such sums so raised or received to be paid into the hands of the treasurer of the said Corporation for the purpose and with the object hereinbefore recited.

Sec. 2. It shall be lawful for the said Mayor to cause any number of debentures to be made for such sums as may be required not exceeding, however, the sum of $100,000 either in currency or sterling money (at the rate of $4.86⅔rds dollars to the pound sterling) as may be required each of the said debentures being of the amount of $1000 or its sterling equivalent at the rate aforesaid, and all such debentures shall be sealed with the seal of the said corporation and signed by the Mayor thereof.

Sec. 3. The said debentures shall be made payable in 50 years from the date hereinafter mentioned for this By-Law to take effect, either at the office of the Treasurer of the said Corporation, City Hall, Victoria, or at the office of the Bank of British North America in London, England, and shall have attached to them coupons for the payment of interest.

Sec. 4. The said debentures shall bear interest at the rate of 4½ per cent. per annum from the date thereof, which interest shall be payable half yearly either at the office of the said treasurer or at the office of the Bank of British North America in London, England.

Sec. 5. For the purpose of forming a sinking fund for the payment of the said debentures and the interest to become due thereon an equal special rate of 3-10 of a mill in the dollar shall in addition to all other rates be levied and collected in each year upon all ratable property within the City of Victoria during the continuance of the said debentures or any of them.

Sec. 6. This By-Law shall, before the passing thereof, receive the assent of the electors of the said Corporation, in the manner provided for by the Municipal Act, 1892, and shall take effect on the 26th day of August, 1892.

Sec. 7. This By-Law may be cited as "The City Hospital By-Law, 1892."

Passed the Municipal Council the 3rd day of August, 1892.

TAKE NOTICE

That the above is a true copy of the proposed by-law upon which the vote of the Municipality will be taken at Burnes' building, Bastion Square, for the Centre Ward; at the City Hall, corner of Pandora and Douglas streets, for the North Ward, and at a building situated on the east side of Government street, between Broughton and Courtney streets, and known as No. 27, for the South Ward, in the City of Victoria, on Monday, the twenty-second day of August instant, and that the poll will be kept open between the hours of eight o'clock a.m. and four p.m.

WHERE INCONSISTENCY LIES.

The lumbering Colonist imitates the infantile News in its attempt to fasten a charge of inconsistency and ingratitude on the TIMES in connection with the Government's conduct in re the smallpox. It follows closely the example set for it by the other Davie mouthpiece, and seeks to support its charges by reproducing extracts from TIMES articles which had for their object the awakening of the civic authorities to a sense of the situation. We are somewhat puzzled over the line of argument taken by the organ in this matter. If the TIMES had actually said anything recently that was inconsistent with the remarks which the Colonist quotes, surely the Colonist would be able to reproduce the later utterances along with the earlier. But it does not attempt to do anything of the kind, for the reason that it can find no inconsistency in the TIMES' comments from first to last. The Colonists' own readers will hesitate to accept its bald assertion that its charge is established, without so much as a syllable of evidence. As for our own readers, they know quite well that the charge is not established, and cannot be established. The city Board of Health was slow in moving at the first, and the TIMES performed what it deemed its duty in striving to urge it on. We have said nothing since then that was at all inconsistent with this. We also spoke well of the first set of health regulations issued by the Government, and still regard them as good in themselves. The Colonist can find nothing in our columns which conflicts with this opinion.

It is evident that either from want of intelligence or want of candor the Government organ misrepresents the issue between the TIMES and the Provincial authorities. Whether as a result of the TIMES' prodding or as a result of their own observations, the civic authorities did take hold of the work, and were proceeding with it when the Government interfered unwarrantably. Dr. Milne was removed from office for doing precisely that which Dr. Davie afterwards instructed Dr. Wade to do. The Colonist will labor a long time before it persuades the public that this action was either just or expedient. To speak of the regulations as good in themselves is not to admit that they should be carried out to the very letter in a wooden-headed fashion, regardless of the individual circumstances. This was done in one case with fatal results, which the public, if not the provincial authorities, will remember with painful feelings. It was very nearly done in another case, where the results would also very likely have been fatal. And further, as we have already said, Dr. Davie himself admitted by his own actions that it was well to enforce the regulations in a discriminating manner; but that was after he had secured Dr. Milne's removal for taking the very same position. Surely the TIMES is at liberty to protest against such proceedings without laying itself open to the charge of inconsistency.

Another action of the Government which the TIMES has condemned is the coercion applied to the Council in the matter of the suspect station. That coercion, as everybody can see, was intended to force the Council into doing what Premier Davie has condemned, and to prevent which he himself introduced legislation in the House of Assembly. His edicts and his legislation are flatly contradictory. The fact that he as Premier endeavors to force the Council into violating enactments for which he as Attorney-General is responsible ought to be enough to condemn him in the sight of any honest and intelligent man. The Colonist is neither honest nor intelligent in taking an opposite view of his conduct.

Finally, as the TIMES has more than once shown, the regulations are differently applied in different places. People who would have been treated as "suspects" and dragged off to the station in Victoria were allowed to go about in Vancouver without let or hindrance. Houses there in which the disease was found were not even closed up. All this took place under Dr. Davie's observation, yet he made no move in the matter, though there would appear to have been much greater need for his interference in Vancouver than in Victoria. When he did attempt to enforce his wishes on Vancouver he was snubbed by the Council and the Health Inspector, and the snub was quietly pocketed. That the two Davies were wrong in their treatment of either Vancouver or Victoria must be evident even to the belated mind of the Colonist. We submit that whoever has been inconsistent in regard to this matter, it is not the TIMES.

EDITORIAL NOTES.

Another compliment comes to the Colonist from the World in this shape: "The once staid old sheet is fast becoming an object of pity rather than of contempt." Behold how these organs love one another.

That was a somewhat remarkable performance at False Pass, Behring Sea, when a detachment of the marines from the Yorktown fired on an American cannery steamer and succeeded in riddling her with bullets, besides fatally wounding the engineer. It seems that the steamer was taken for a Canadian "poaching vessel," and that by following closely some very stupid orders given by Commander Evans, the marines took away the life of one of their own countrymen. This outcome of its Behring Sea policy the U. S. Government must regard with extreme satisfaction; it has made a show of force in behalf of its own side of the dispute, and instead of causing an international difficulty thereby, it has only inflicted injury on its own citizens. Verily Uncle Sam grows wiser as he grows older.

The Kamloops Sentinel vigorously advocates the building of a railway "from Revelstoke to the Northeast Arm of the Upper Arrow Lake, thence through Lardeau Pass for about 45 miles, passing Trout Lake and reaching the navigable waters of Kootenay Lake at the mouth of Lardeau River." The advantages of the route lie in the railway reaching water that is navigable all the year round, in its connection with the main line of the C.P.R. and in its crossing an important part of the mineral belt. The Sentinel also claims that it would secure the control of the business of Kootenay "to the Canadian Pacific Railway and to the merchants and manufacturers of Canada, which should certainly be the principal object of those who ask the people of Canada to subsidize so liberally their schemes for railway development." As at present the Canadian Pacific is playing dog in the manger with the Kootenay country, neither establishing proper communication itself nor allowing others to do so. The lack of good transportation facilities is a decided handicap on the district, and should be remedied without delay.

The excitement of the last few weeks seems to have thrown the Vancouver World into even a worse than its usual state of mental confusion. It raves about the TIMES having "fabricated" some "double-barreled falsehood" concerning it and the San Pedro wreck, and on that account calls for "amendes" and "apologies" and "corrections" unceasingly. Perhaps it is necessary to set the matter straight in order to prevent the World's intellect from becoming a more complete wreck than the San Pedro. Therefore, in the cause of humanity, and not for the reason that the subject has any great interest attaching to it, we may set forth the matter thus plainly: When the big steamer struck on Brotchie ledge last fall the World published a narrative, in the headlines of which it was stated that the wreck occurred "at the entrance to Victoria harbor." The TIMES corrected this palpable error, pointing out at the same time that the World must have made the misstatement through malice and not from ignorance. That is the only correction the TIMES has made, or felt called on to make, regarding the incident. Moreover, we have no apology to offer, unless it is to our readers for having taken notice of the World's wild ravings.

DR. WATT'S LAST HYMN.

TO THE EDITOR,—Dr. Watt has sung his last hymn, so I will pronounce the benediction. His remarks about my not being able to stand the operation are too puerile for comment. Referring to the other passengers on the train, Dr. Watt is very disingenuous, for I was particular in saying, "I believe they told the truth." He knows well enough I was pointing out the absurdity of such an inspection. Everyone knows that vaccine lymph can be tested only by results. Inoculation was the great prophylactic. Now it is a felony, and subjects the practitioner to fines and imprisonment. Vaccination will follow it in due course, for the number of cranky anti-vaccinators is increasing in a gratifying manner. The vaccination controversy, chameleon-like, has changed its color and complexion as often as circumstances demanded. From the date of Jenner's discovery (i.e., the Horse's Leg Swindle) in 1798, doctors have disagreed on this question, and have deserted almost every position taken in its defence. Dr. Watt does not care to discuss medical topics with a man who receives ideas from encyclopedias, etc. He dare not, for it would mean professional ostracism for him, and so he has studiously avoided the main question at issue. His want of respect for men who write articles for encyclopedias, etc., is a symptom of a much inflated mind. Were there no text books used in the institution where Dr. Watt "learnt it all?" That Dr. Watt may soon understand that there are two sides to every question, and that he may have the courage to honestly face the other side of the vaccination question, is the kindliest recommendation of WILLIAM C. POPE.

HOW POOL BALLS ARE MADE.

Pressed From a Gun Cotton Mixture, Cut in a Lathe, and Dyed.

"Celluloid has altogether superseded ivory as a material for pool balls," said a manufacturer to a Washington Star writer. "A set of sixteen celluloid balls will outwear three or four sets of ivory, and they cost only $25, whereas you cannot buy sixteen good ivory balls for less than $115. The condition of the atmosphere which causes the ivory balls to shrink and swell and crack just as if they were made of wood has no effect upon the celluloid.

"Of course, you know that celluloid is a mixture of gun cotton and camphor. Naturally it would be yellow, but zinc white is put in to make it white. After the ingredients have been properly mingled with the aid of steam heat the celluloid is pressed into blocks which are little bigger than the balls that are to be made. In order to render them as hard as possible the material is subjected to a pressure of 300 tons for each ball. Next the blocks are turned in a lathe to perfect spheres of precisely the diameter required by means of knives which work automatically and cannot cut beyond a certain distance from the centre of each ball.

"When this has been done the perfect spheres of celluloid are ready to to be dyed in various colors. For this purpose they are dipped and allowed to remain for some time in pots containing the dyes, those parts which are not desired to be colored being protected by means of little cups of brass ingeniously fastened upon the balls. In the plain balls of red, blue, green, purple and yellow only the round spot where the number is to go needs to be covered, but in the treatment of the striped balls the matter is not so easy. After they have been fished out of the pots the dyed balls are put on a lathe and made to revolve rapidly, while fine sandpaper is delicately applied so as to smooth their surfaces. Then a keen knife, manipulated by hand, removes from them the thinnest conceivable shaving all over, which does not take off the color, because the dyes penetrate to a little depth. Finally, sandpaper is again applied and the balls are ready for the last process to which they must be subjected.

"This last process is the varnishing. They are placed for this purpose in little wire cups, which come into contact with them at as few points as possible, and a transparent lacquer is bestowed upon them by hand with a brush. As soon as they are dry they are ready to to be packed and sent to the retailer. Then they are quite as pretty to look at as any ivory pool balls that ever were made. When are the numbers put on, you ask? O, they are cut very quickly with dies before the balls go into the dye pots, and a little plumbago is rubbed into them to make them black. No, it would not be possible for a celluloid ball like one of these to explode; nor could it be made to burn, inasmuch as its density is too great. However, if you were to cut it up into chips in would go off at a pretty lively rate upon being ignited."

The London Lady-Help Movement.

The "lady-help" movement started in London a few years ago was practically a dead failure, but an effort is now to be made to revive it in slightly different shape. For this purpose the Household Auxiliary Association has been formed. Both employers and applicants for situations are to supply references on registering their names as annual members. The ladies who take service are not to be required to take their meals or share a sleeping-room with regular servants, nor will they be asked to undertake scrubbing, blacking boots, or carrying heavy weights upstairs, although special agreements may be made in particular cases. This is the plan adopted by the Gentlewomen's Employment Association in Manchester, which has been in operation for little more than a year, and has just issued its first report. From this it appears that the lady-helps are most desirous of finding situations as companions, positions which are about the most difficult of all to find. There is a good demand for nurses and plenty of ladies willing to undertake the duties of such places but, curiously enough, most of the employers seem to think that "lady-helps" ought to be willing to work for much smaller wages than those paid to regular servants or even for no wages at all for the sake of getting a comfortable, home In others words, they feel that they ought not to be called upon to pay equal prices for skilled and unskilled labor. If young "ladies" knew more about ordinary household duties they would be better fitted for making a livelihood if overtaken by misfortune. The problem now is how to provide the necessary preliminary instruction for women absolutely penniless and helpless without setting them to common "drudgery." Some day or other the association hopes to have funds for this purpose, but where they are to come from no one yet has the least idea.

"EL PADRE"
Reina Victoria.

JOSEPH SEARS
HOUSE AND SIGN PAINTER,
Glazier, Paper Hanger, &c.
114 YATES STREET

THE OCCIDENTAL HOTEL.
R. H. BERRYMAN, Proprietor.
Nice clean rooms, best of board, well stocked bar; rates low; special rates made to families. Strangers in the city will find this a comfortable, homelike house to stop at. No pains spared to give satisfaction. jy15-tf

THE CITY AND DISTRICT

Sheffield cutlery at Fox's, 78 Government street.

San Francisco Sugar

Ex steamer Umatilla, free from smallpox infection. Dixi H. Ross & Co. *

His Last Confirmation Service.

Bishop Hills will hold his last confirmation service at Mount Tolmie on September the 18th.

Postponed.

The garden fete which was to have taken place at Bishopsclose on the 31st has unavoidably been obliged to be put off indefinitely.

Catalogues Ready.

Catalogues and entry forms for the British Columbia Agricultural Association are now ready and can be had from W. H. Bainbridge, Jewell block, Douglas street.

Death's Hand.

William George Elliott died at his residence, Walnut street, Spring Ridge, on Saturday, of consumption. He was 41 years of age. The funeral took place this afternoon.

From Alaska.

The steamer Queen arrived at Nanaimo yesterday morning with an Alaskan excursion party on board. Several of the party came down on the noon train and will rejoin the steamer to-morrow morning.

A Splendid Spring.

A gentleman who is building a residence at Mount Tolmie, while digging for a well on Saturday struck a splendid spring. The force is sufficient to supply water in the upper rooms of a two story house.

Leaving for Kansas City.

Mr. F. M. Bloomquist left for the East yesterday morning. He will represent Far West lodge K. of P. at the bi-annual convention of the Supreme lodge to be held on the 23rd inst. He will join Mr. C. Behnsen at Vancouver.

In Chambers.

H. Liebes & Co., vs. Morris Moss. Application of plaintiff for an order that the plaintiff may sign final judgment against the defendant. Judgment for the amount was endorsed on the writ. A. L. Belyea for plaintiff and Thorton Fell for defendant.

Trust Her Not.

A young lady went out of the city rejoicing on Saturday because she fooled one of the medical health inspectors. She bared her arm and pointed to a small swelling covered with sticking plaster. It was a mole, but the doctor was not ungallant enough to doubt her and she was allowed to go.

An Excursion.

The members of the Chamber of Commerce of Seattle propose visiting Victoria next Saturday, accompanied by a large number of other prominent citizens. It will be gratifying to Victoria to welcome Seattle after the recent "coolness," and there is no doubt the few hours' stay of the excursionists will be made pleasant.

To Milkmen and Farmers.

One of my most valuable cows having been attacked by a severe milk fever, I called in the services of Dr. S. F. Tolmie, and was surprised and delighted to find that the next morning she was well and on her legs again. I have been in the milk business nine (9) years and this is the first case ever cured by a veterinary surgeon in my experience.
GEORGE McRAE, Victoria Dairy.

The Islander Arrives.

The steamer Islander arrived at Vancouver this morning from Alaska and will be here this evening. The C.P.R. passengers will leave the steamer at Vancouver, the others coming on to Victoria. The Islander leaves for the north again on Wednesday. Already a large number of tickets have been sold, and it is expected that a number of Victorians will help swell the list.

A Big Subject Well Handled.

A work of art which is attracting a good deal of attention at present is the painting of Chimborazo, the great South American volcano, 23,000 feet high, exhibited in Messrs. Hibben's window. The picture is from the easel of Professor Leeman, late of Paris, and now a resident of Victoria. Much favorable comment is passed upon the piece by the crowds who pause to look at it. The subject is a grand one and treated in a sympathetic manner.

Business Picking Up.

The ladies and gentlemen who have been kept away from their homes on the other side of the line on account of the quarantine crowded the City of Kingston last evening. Although they have had a good time here, they were glad to get away to their homes. There were over a hundred packages of money and a big lot of other goods to go over by express, but the mail as usual was a day old, as a dispatch was received from the Sound to the effect that the mail would have to be fumigated until further orders. To-morrow evening the Kingston will call at the outer dock on her way in to load two carloads of pelts and two of rice.

Sunday Evening Recreation.

Some gentlemen incited two dogs to fight at Beacon Hill Park yesterday evening, with the result that one canine emerged from the conflict with a mangled ear, and the other with a badly bitten fore paw. Both animals suffered much pain and lost a great deal of blood. The gentlemen who set them fighting tried to make them continue, but the dogs had had enough. There is a by-law a provision of which deals with gentlemen who amuse themselves in this manner, and calls for the imposition of a heavy fine upon all persons who incite dogs or other animals to fight upon the public streets, highways, alleys or lanes or in public parks.

Not Our Own Masters.

The "cheek" of some of Dr. Davie's assistant health officers is simply appalling. It is reported of one of them, when interviewed by a representative of the Victoria city corporation in respect to the destruction of property belonging to the city, that he blankety blanked the corporation and declared he was not its servant, but was employed by the Provincial Government, and that he was blankety blanked if he would take orders from anyone but Dr. Davie, who, he said, would destroy what property he thought necessary whether the city paid for it or not. He was, however, given orders just the same and told to govern himself accordingly, so far at least as the Ross Bay suspect station was concerned.

To Discuss the By-Laws.

The City Council will hold a special meeting Thursday evening to discuss the by-laws now pending.

A New Sealer.

Walter Climie, of this city, is making arrangements for the building of a sealing schooner, a model of which has been prepared by Tray & McDonald. He hopes to have the new sealer ready for service by Christmas.

At the Police Court.

The docket at the police court was almost a blank this morning. The Yung See piggery nuisance case came up on remand, and was further adjourned for a week, the defendant promising to have the pigs taken out of the city immediately.

The Coquitlam Bonds.

Capt. Webster, of the Union Steamship company of Vancouver, came over last evening. He is here to make final arrangements to send the bonds for the release of the Coquitlam, to Sitka. They will probably go up on the Islander, which sails on Wednesday.

A Forest Trail.

The contract for the opening of a six foot wide trail, 30 miles long, through the forest between the head of Cowichan Lake and Alberni, traversing the Dunsmuir estates, has just been let to Mr. John McPherson. The work will occupy about two months, and will be begun immediately. The timber in the line of the trail is very heavy.

The Kidnapped Sailors.

The six sailors taken from their ship at Port Gamble by union men and shipped to Victoria, have made up their minds to look for work in Victoria. Consul Myers, however, is trying to have an investigation into the facts of the case instituted, and he also intends writing to the captain of the schooner with a view of having the men returned to the schooner.

Tenants of the Drydock.

The government steamer Quadra will come out of drydock to-morrow afternoon, completely renovated and ready for the road once more. A few of her interior fittings will be attended to when she ties up at the Custom House wharf. The Warspite will go into drydock Wednesday for an examination of her injuries. Half H.M.S. Warspite's crew are enjoying shore leave to-day. The other half will come ashore to-morrow.

Looking for an Office.

Mr. H. E. Connon, the newly appointed agent for British Columbia for Dodwell, Carlill & Co. and the Northern Pacific Steamship company, spent to-day in the city looking for a suitable office. He will return to Vancouver in the morning to clear up his business there, and at the end of the present month will come to Victoria to reside permanently. Dodwell, Carlill & Co. intend to carry on a general commission business in Victoria, without, however, carrying any stock. The Vancouver News-Advertiser, speaking of Mr. Connon's departure from that city, says: "General regret is expressed at Mr. Connon's departure from the city, as he is deservedly popular with all who know him, and the city will also lose the services of one of their most zealous and able aldermen." Mr. W. H. Forrest has been appointed C.P.R. freight agent at Vancouver, vice Mr. Connon.

Progressive Commerce.

Spot cash is the order of the day. We want money to carry on our large and increasing business. To get this money we have reduced prices for the vast stock we hold to an alarming extent. The immense reductions made would form a good capital for a small firm. Thirty to fifty per cent. discount on $150,000 worth of stock is one of the boldest things attempted yet in the province. Yet we are doing it for these reasons: We are buying enormously, paying promptly for our goods, wish to increase our connection and build up the biggest trade in B. C. Our sale commenced on Monday, and is forging ahead. Ladies, you want a bedroom, parlor, or drawing room suite, or one of our lovely sideboards, or a comfortable, artistic chair, or a bright and pretty carpet, or many things in crockery, glassware, lamps and cutlery. Sehl-Hastie-Erskine, 66 and 68 Government street, will sell them to you at far less than auction prices. *

WHARF AND WAVE.

Jottings of Interest to Marine Men Concisely Compiled.

Schooner Caroline arrived from Port Townsend this morning. She is for sale.

The schooner Halcyon has had all her sails bent on and tried, and is ready for sea at any moment.

A smart little yacht will be launched from Warren's yard in a few days, she is designed for fast sailing.

The bark Martha Fisher is being fresh painted and cleansed while waiting orders in the inner harbor.

Steamer City of Puebla arrived from San Francisco yesterday afternoon with 140 tons of freight for local merchants.

The pontoons in the outer harbor are to be repaired and made water tight, as they may possibly be used again on the San Pedro.

The arrival of the steamer Kingston from Seattle on Saturday evening was witnessed with pleasure by everybody. The steamer was off the run nearly a month.

Another tramp steamer has arrived from England to enter the coast trade says the San Francisco Examiner, and it is rumored that she is under a two years' contract to a prominent coal merchant on East street, and will at once begin operations. This ship is the Bushmills, which arrived in port to-day from Liverpool and Champerico. At the latter port she discharged her cargo of coal and started for Vancouver in ballast, but she ran short of coal and put into San Francisco for a supply. Sixty tons was taken off to the steamer in a lighter this afternoon and the vessel will leave for the north as soon as it is all on board. During the trip up the coast, Albert Spencer, an apprentice, aged thirteen, died of fever and ague on August 4th and was buried at sea the same day.

THEY MEAN BUSINESS.

The Thunder Hill Mining Company Bringing in a Lot of Mining Machinery.

A general meeting of the Thunder Hill Mining Company was held this morning for the purpose of ratifying the action of the directors in certain matters.

The company recently purchased a 50-ton concentrator, which is now on the way to the mine, and an agent of the company is in England negotiating for a plant for the company. There is now over a thousand tons of ore on the dump, which will be worked as soon as the machinery can be put up.

BRIEF LOCALS.

One Day's Doings in City and Province Briefly Related.

A 1 shaving materials at Fox's.

The Young Men's Institute meet in regular session this evening.

A resident of Goldstream brought a panther's head to town on Saturday and claimed the usual bounty.

Fine fishing tackle at Fox's, 78 Government street.

John Bowden, a stone cutter, died at his residence, Humboldt street, on Sunday, aged 38 years. He was a native of Iowa.

Two young stallions are running wild in Esquimalt district. If the owner does not attend to them shortly the Provincial police will.

Try Breakfast Gem, the finest cereal food for people troubled with dyspepsia, to be had at J. P. Matthews & Co., SOLE AGENTS for Victoria. *

Lieut.-Governor Nelson has sent a contribution of $50 to the Macdonald memorial fund at Kingston, and will sign the memorial autograph book.

In many parts of the city the tramway track is gradually disappearing in the mud. The track cleaners will have plenty to do when they arrive at those buried rails.

Genuine Boston baked beans at the Dairy Kitchen to-day. *

The "unsightly excavation" on Fort street, caused by the sewerage works, has been filled up and levelled off, giving the heavy traffic on that thoroughfare a better chance to make some headway.

The Banner Mammoth lamp, illuminates 50,000 cubic feet, equal to 10 ordinary lamps, can be had from Weiler Bros. *

The Brackman & Ker milling company of Victoria have bought out the business of Messrs. Mathers & Milligan, New Westminster, flour, feed and provisions. One of the Brackman & Ker company will take charge of the Westminster branch September 1st.

Some extra fine quality silk plushes in new shades, at Weiler Bros., 51 to 55 Fort street. *

PERSONAL.

Movements of Well Known People in Various Directions.

S. M. Robins, of Nanaimo, is in the city.

Capt. Webster, of Vancouver, is in town.

E. J. Palmer, of Chemainus, is at the Driard.

Geo. Byrnes went over to New Westminster to-day.

Miss A. Dolan will visit Sound friends for a few weeks.

C. A. Holland returned from Vancouver last night.

D. Wolfe and Mrs. Wolfe, of Nanaimo, are in the city.

J. S. Yates was a passenger from the Mainland last evening.

A. Bullock and A. A. Richardson, of Nanaimo, are at the Oriental.

Capt. McCallum was a passenger from the Mainland last evening.

Allan Cameron, of the C.P.R., came home from Vancouver last night.

J. B. Leighton, Savona, came down on Saturday and will remain a few days.

Rev. J. B. McCullogh, wife and family, of Naas River, are at the Oriental.

H. Abbott, Superintendent of the Western Division of the C.P.R., is in the city.

J. R. Dutton, freight agent of the N. P. & Manitoba Railway at Winnipeg, is in the city.

Supt. Hussey, of the Provincial police, returned from New Westminster last evening.

G. H. Lent, Mrs. Lent and F. H. Paddell returned from Harrison Hot Springs last night.

A. W. Vowell, Superintendent of Indian affairs, came back from the Mainland last night.

H. G. Wilson and H. Stanton returned last evening from a visit to Harrison Hot Springs.

Archie Campbell in company with his wife and family leave this evening on a holiday trip to Winnipeg.

Fireman Whitcom, who had his foot injured at the tramway powerhouse fire, is able to be around again.

Capt. P. H. Langlois, who has been quarantined here for two weeks, left for Portland last evening to join his ship.

T. R. Smith, C.E., who has been engaged on the Victoria & Sidney Railway survey, leaves for San Francisco this evening.

Foster Macgurn, manager of the Mutual Life Insurance Company for British Columbia, leaves this evening for San Francisco.

H. W. Holden, who represents Parke Davis & Co., druggists, of Detroit, on the coast, with headquarters at Portland, is in the city.

Dan Sullivan, the well-known oarsman, is threatened with an attack of bronchitis, and may not be able to row in the coming regatta.

Chief Engineer George Lent, of Kingston, who has been to Harrison Hot Springs with his wife, will be at his post of duty again to-night.

Jack Thompson, who does the coast for Stearns & Co., of Detroit, was in city Sunday. Mr. Thompson is the champion amateur billiardist of the coast.

Col. Baker, Minister of Education, arrived at Vancouver Saturday night from Cranbrook, by way of Seattle, and will come over to Victoria this evening.

AT THE VATICAN.

Private Life of the Pope—Early Hours and Simple Habits.

In summer as in winter, Leo XIII., is awakened at six by his private servant, Francesco Centra, from Carpeneto. Centra knocks at the door, opens the blinds, addresses a customary salute to his master, and at once retires. The Pope gets up from bed unaided, and also performs his toilet unaided, except as regards shaving. This operation is performed by the faithful Centra. The bedroom is not the one used as such by his predecessors; it is a small and rather low cell in the mezzanino or entre sol, to which he repaired many years ago in the course of some restorations to the old room, and where he has remained ever since. At seven o'clock he says his mass, attended by two cappelani segreti, and hears a second mass celebrated by one of the same attendants, who act also as private secretaries. It happens sometimes that the Pope, having been troubled with sleeplessness, gets up with a piece of Latin or Italian poetry composed during the wakeful hours. The verses are generally dictated to one of the secretaries before the mass. The breakfast of the Pope consists of coffee, milk, and bread without butter. Soon after, the official reception begins. The first one, as a rule, is given to the Cardinal Secretary of State who submits to the Holy Father the documents received the day before, or those which are awaiting the pontifical signature. This audience lasts more than an hour, and takes place every day except Tuesdays and Fridays, which are set apart for the reception of the diplomatic body. Cardinals, heads of congregations, generals of monastic orders, strangers of distinction, are received later in the day. It is to be regretted that Leo XIII. does not accord private audiences as often as his predecessors did. Many strangers are obliged to leave Rome without having been able to see the Holy Father. In winter, if the sun shines, the receptions are interrupted for a while for a walk or a drive of half an hour in the Vatican gardens. Leo XIII. dines at one o'clock in the old Roman style. The dinner is composed of a soup, generally pate d'Italic, a roast, a vegetable, very often fried potatoes, and fruit. Pius IX. was very fond of boiled meat, which was served daily in a triple form—boiled chicken, boiled beef, and boiled mutton. This plate is banished from Leo's table as well as bacon and cheese. The only wine served is old Bordeaux. The Pope is very apt to glance over the journals at meal times. He dines alone generally, waited upon, in addition to the valet, by his scalco segreto, or carver, Cammendatore Giulio Siarbini. This official is a gentleman of refined tastes and artistic culture, owning a good collection of pre-Raphaelite pictures. An invitation to take coffee and milk after the Pope's mass is considered a great honor, and it is only extended to those who have heard the mass and received the holy communion from the Pope's hands. It has lately been granted to the ex-Grand Duchess of Tuscany and to the Princes Borghese, Aldobrandini, Altieri and Ludovisi. The same favor is shown sometimes to the nephews of the Pope. In all cases the visitors sit at a small table placed next to the Pope's. After dinner Leo XIII. takes a short rest on a chaise lounge, siesta never lasting beyond the hour. Then follows a drive in the Belvedere gardens through which an avenue more than a mile long has lately been opened, affording many lovely points of view over the city and its suburbs.—North American Review.

Mr. Gladstone on Cycling.

Mr. Gladstone has been giving his ideas on cycling to a correspondent of Answers. He said:—I have noticed with real and unfeigned pleasure the rapid growth of cycling in this country, for not only does it afford to many to whom it would otherwise be unobtainable a healthy and pleasurable form of exercise, but it also enables them to derive all those advantages of travel which, previous to the advent of cycling, were out of their reach. It is far more profitable than the luxurious railway journey from the city to some definite point along an unalterable route, over which the traveller is whirled with no time for observation and no opportunity of examining the district through which he is carried. I can only emphasize the fact that I consider that physically, morally and socially, the benefits that cycling confers on the men of the present day are almost unbounded.

Phœnix Lager Beer.

Pure coffee, with pure cream, at the Dairy Kitchen. *

The missionary steamer Glad Tidings went out in the straits to-day when her compasses were adjusted. She leaves for the north this evening.

ARBITRARY AMERICANS.

They Fire Upon an American Steamer While Going Through False Pass.

Two Victoria Sealers and Two American Whalers Seized in Behring Sea.

The steamer Bertha, Captain Anderson, arrived from Unalaska at 8 o'clock last night, bringing the first news that a detachment of marines from the United States cruiser Yorktown had wantonly fired upon a peaceable, law-abiding vessel, and fatally wounded one officer, says the Port Townsend Leader. The attack took place at False Pass, Alaska, August 1st, on the American steamer Polar Bear. The steamer's pilot house was riddled with rifle bullets and the inmates narrowly escaped death. The Polar Bear had been used during the season as a steam tender for the salmon canneries. The season's product had been loaded aboard sailing vessels and sent to San Francisco.

Messrs. Haller, Johnson & Jensen, of Alaska canneries, decided to return to their homes at Astoria on the Polar Bear, Captain L. G. Havener, and concluded to go through False Pass, which saves them 130 miles. As the vessel was going through the pass, they told a Leader reporter last night, they observed a solitary sentinel stood some distance from an apparently deserted Indian village, and of whom they took not much notice. The steamer ran ashore. Her stern was slewed around by the current, and she was being backed off when a crowd of men appeared from over an adjacent acclivity and without warning fired repeated volleys into the vessel. The chief engineer, Wm. Christensen, of Astoria, was severely and probably fatally wounded in the chest. The persons who were in the pilot house, including the captain, thought that they had been attacked by land pirates or whiskey smugglers, and dropped to the floor. The vessel was steered by the tiller ropes, the captain lying flat on the floor. Volley after volley of rifle bullets continued to strike the steamer as long as she was in range. She was headed for and proceeded forthwith to Unalaska, where the facts were reported to Captain Nelson, of the United States steamer Adams, the senior officer in port.

Captain Nelson explained to the officers and passengers of the Polar Bear that Commander Evans had detailed a squad of men to guard and permit no vessels to go through False Pass.

It is quite probable that the marines mistook the Polar Bear for a British vessel that was trying to sneak out of the sea, and was fired upon.

The chief engineer was taken aboard the Adams, where he received careful medical attention, and has some slight hopes of recovery. The Polar Bear was repaired and was to have sailed the day following for Astoria. Her house is filled with rifle bullets and bears unmistakable evidence that she was almost literally shot to pieces.

Mr. Haller said to the Leader reporter last night, just before he took the North Pacific for Tacoma en route to Astoria, that he would demand immediate redress from the Government for damages to the steamer. He characterized the acts of Commander Evans as outrageous, and believed that justice would be done by his immediate recall and an examination.

Captain Nelson, he said, examined the Bear's papers and found them correct, and further said that the steamer was apparently a law-abiding craft. The news created intense excitement at Unalaska. The officers on the British men-of-war apparently relished the situation. One of them expressed an opinion that this episode would open Uncle Sam's eyes to the arbitrary actions of the United States Government in Behring Sea.

VICTORIA SCHOONERS SEIZED.

The Bertha also brought down from Unalaska news of the latest seizures. The British schooner Mountain Chief, of Victoria, was seized within Behring Sea with freshly killed seals aboard. The Adamas took her in charge and towed her to Unalaska, where she was delivered over to the charge of the British men-of-war. The Mountain Chief will also be prosecuted for having violated the modus vivendi.

The British steamer Winifred, one of the vessels which landed their cargo of sealskins on the British steamer Coquitlam at Port Etches, and which was seized by the Corwin June 22nd, was seized by the revenue cutter Richard Rush in Behring Sea. She had a few fresh skins and several freshly slain seals on her decks. The Albatross took the Winifred in tow and sailed for Sitka August 3rd, where she will be delivered over to the United States marshal.

The ostensible whaling bark Lydia was detected in transferring seals that had been killed in the forbidden waters aboard the whaling bark Northern Light, which got away and sailed for the south. The Lydia has a complete sealing outfit aboard. A prize crew was placed aboard her and sent to Sitka.

The whaling schooner Jane Gray was seized by the Mohican while hovering around the seal rookeries after having been repeatedly warned to keep out of Behring Sea. She is charged with having violated the modus vivendi.

The schooner Helen, of Seattle, came into Unalaska with her headgear carried away. After repairing she will be ordered to leave the sea.

[It is not true, as stated by the Leader, that skins were transferred at Port Etches from the Winifred to the Coquitlam.]

The Genuine Merit

Of Hood's Sarsaparilla wins friends wherever it is fairly and honestly tried. Its proprietors are highly gratified at the letters which come unsolicited from men and women in the learned professions warmly commending Hood's Sarsaparilla for what it has done for them.

Hood's Pills cure liver ills, jaundice, biliousness, sick headache, constipation.

Every working man should purchase of Graham, Blue Front Store, at 148 Government street.

Try the Dairy Kitchen; something new and very popular.

Phœnix Lager Beer.

SATURDAY'S LACROSSE MATCH.

The Vancouvers Again Win and are Practically the Champions this Season.

The eighth scheduled game in the B.C. championship series has been lost and won, the almost invincible Vancouvers on Saturday adding another win to their list. The Caledonian park was visited by a large number of spectators, who watched the match with great interest, and it proved an exhibition of lacrosse well worth seeing, although from a Victoria standpoint it would have been better had the home team won. At the start the home team played all around their opponents, and even to the finish played a more aggressive and cleaner game, the Vancouvers playing mostly a defence game, not paying much attention to field play, but when they got the ball in the vicinity of the Victoria flags doing more concerted and effective work. When the visitors realized that the Victoria boys were playing in form that they could not hope to overmatch, they began to check more vigorously and in a manner which correct rules do not allow; but in this they were not allowed to have it their own way and honors were fairly even on this score before the match ended—save only Suckling's dirty work, which no one attempted to equal. As regards individual play every man on the Victoria team put up a brilliant game and even though they lost need not be ashamed of their defeat, for they had good metal to contend against, and nobly tried for victory. The teams were:

Victoria.		*Vancouver.*
C. Blain	goal	S. Meyers
R. Eckardt	point	A. E. Suckling
C. L. Cullin	cover point	h. Cheyne
A. Belfray	defence field	F. Miller
J. McLeod		T. Spain
W. Ditchburn		M. Peard
W. F. Blight	centre	W. Quann
C. Van Allen	home field	D. R. Smith
A. Macnaughton.		A. E. Nichols
D. Tudhope		E. A. Quigley
Geo. Tite	outside home	H. McGregor
R. Frost	inside home	R. E. Swift
W. H. Cullin	field captain	J. A. Smith

A. B. McKenzie, of Westminster, ably filled the position of referee, while Geo. Morphy and D. Clark acted as umpires.

The teams lined up at six minutes past 4 o'clock and were greeted with applause. After the draw Quigley secured the ball and passed to Smith. Van Allen got in the road and took it up field and made a shot at the Vancouvers' flags. In a scrimmage that followed Cheyne was struck on the leg and time was called. Meyers was moved out to take Cheyne's place and the latter took the goal. After the face off Quann sent it down field, but Belfry quickly returned it; when Frost, Van Allen and Tite all made ineffectual shots on the Vancouvers flags. Miller sent the sphere to the other end of the field, but Ditchburn cleverly captured it and after a combination play between McLaughlan and Frost the latter scored the first goal for Victoria. Time, 11 minutes.

The second game was a short one, and was captured by Vancouver after two minutes' play. Blight got the ball at the start and it was passed along by the Victoria home men to Frost, who missed in a shot on goal. Peard captured the rubber and threw it down to Draper (substituted for Cheyne), who tossed it to Quigley and he shot it between the flags.

The third game was a hard and fast one from start to finish. The ball was sent down on the Victoria flags, but the defence of Eckhart, Cullin, and especially Belfray, was vigorous and the home was well fed. All the Victoria boys did brilliant play, but it was not effective. There was heavy checking done by the visitors, who also did considerable swiping, especially when Macnaughton tried to score by dropping on the flags. Ditchburn was a star, and Blight, Tudhope and Van Allen also played splendid lacrosse. Suckling, Swift and Spain for the Vancouvers worked like Trojans, and by close checking enabled Peard to place the ball on the home flags. Blain brought it up field, but Suckling sent it down to Smith, who tipped to Quigley and he to Draper, who scored again for Vancouver. Time 21 minutes.

The fourth game lasted 23 minutes and was won by Victoria. Almost at the start Smith had his hand injured and he and McLeod were laid off. The game then went on merrily. Lively work was done by both sides. Blight finally brought it up the field to McNaughton, who threw to Frost, and he tipped it between the Vancouver flags.

The fifth was closely contested, and was the hardest and longest tussel of the day. McNaughton made several shots on the flags, and once as Frost was just about to score Suckling deliberately fouled him with a cross check on the back of the neck. The ball was then passed several times from flags to flags by Belfry and Suckling. Quigley and Echart got in a scuffle, the former trying some of his funny work, but he was fooled at his own game, and both were ruled off the field. Swift brought the ball into neighborhood of the Victoria's goal, where the Vancouvers' home massed and McGregor succeeded in swiping it through the flags, thus winning the third goal and practically the match for Vancouver. Time, 33 minutes.

For three minutes more the Victorias' tried to secure a goal, while the visitors played defence. Suckling was ruled off for fouling Tudhope; but this was done too late to give the home team any advantage and time was called, the match being awarded to the visiting team by three goals to two.

The result of the play so far this season is:

	Won.	Lost.
Vancouvers	5	1
Westminsters	2	2
Victorias	0	4

The only match which Victoria won on the field (on May 23rd) does not count owing to the protest against Geo. Tudhope, which was allowed by the president of the association.

The excellent music furnished by the Victoria City Band was a very pleasant feature of the day.

Mothers

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35 doses, 35 cents.

Phœnix Lager Beer.

"PROMPT AND PERMANENT."

RHEUMATISM.—Jan. 17, 1883, GEO. C. OSGOOD & CO., Druggists, Lowell, Mass., U. S. A., wrote: "MR. LEWIS DENNIS, 136 Moody St, desires to say: "ORRIN ROBINSON, a boy of Graniteville, Mass., came to my house in 1881, walking on crutches; his leg was bent at the knee for two months. I gave him

ST. JACOBS OIL

to rub it. In six days he had no use for his crutches and went home cured without them."

Lowell, Mass., U. S. A., July 9, '87: "The crippled boy ORRIN ROBINSON, cured by St. Jacobs Oil in 1881, has remained cured. The young man has been and is now at work every day at manual labor." GEORGE C. OSGOOD, M. D.

IT IS THE BEST.

PROVINCIAL NEWS.

KAMLOOPS

Frank Crotty has been awarded the contract for the building of the new school at Kamloops. There were only two tenders put in.

Arrangements are being made for the offering of liberal prizes for horse races at the Inland agricultural exhibition.

Frank Harvey has sold his interest in the flock of sheep which he brought in from the States last year. They have been pasturing in the neighborhood of Big Bar and Hat Creek where they were driven last fall. The Canadian Western Ranching Co. were the purchasers. The flock numbers 8000.

Miss O'Rourke, of Quilchena, a few days ago, was climbing over a fence, when the top rail gave way, prostrating her to the ground, breaking her left arm and otherwise bruising her.

The members of the fire brigade No. 2, Kamloops, met at the Grand Pacific Hotel last evening to give an expression of their regard to Mr. D. M. Hosker, captain of their company, who is about to leave Kamloops. The members of the company presented him with a beautiful pitcher and ring accompanied by an address.

The organization of the new Kamloops Presbytery, authorized by the Synod of British Columbia a few weeks ago, was completed on August 9th in the Presbyterian church at Vernon. Rev. Mr. Murray of Westminster was appointed moderator.

Major Vaughn has a considerable force of men now at work at the coal mine near the city. They are industriously following the seam down at an angle somewhat greater than 45 degrees, and are progressing at the rate of six or eight feet per day. With every foot of excavation the prospect improves, and the body of coal now showing up firm and solid in the seam indicates that the property is of genuine value. As soon as the work has been prosecuted far enough to show the real worth of the seam a mining plant of the most modern kind will be put in, and the business of producing coals for the market proceeded with energetically. This will mean a great deal for Kamloops, and every citizen will heartily wish Major Vaughn and his associates the greatest possible amount of success in their enterprise.

On Monday morning Thomas Armstrong missed his small sail and row boat, and on the same morning Hull Brothers discovered that some one had stolen from their slaughter house the previous night the hindquarters of two sheep, and a large cut out of a hind quarter of beef. The boat was found on Wednesday, bottom up, in the Thompson near Spences Bridge which is 75 miles west of Kamloops. A. B. Ferguson of the Lake View house reports seeing a strange man in a boat the morning after the theft, at the foot of the lake near Savona. Mr. Ferguson looked at him through a glass about a mile and a half distant. He was hatless and seemed unacquainted with the locality. After landing and securing the sail, he pushed off into the river. A camp fire had been seen up the lake the night previous, and on going there the remains of a haunch of beef were found. No suspicious stranger has been seen along the river below Savona, and the belief is that the man, whoever he may have been, was not familiar with the river, and lost his life trying to escape in a little boat.

On Thursday a dwelling house occupied by Dr. Pearse, at Nicola Lake took fire at 3 p.m. and was destroyed. The fire burned so rapidly that nothing was saved but a few books, including the doctor's ledger. It is believed the building was insured for $600, but the policy has not been found. Dr. Pearse lost everything amounting to about $2000, and had no insurance. The building was the property of Mr. A. E. Howse. Another building also belonging to Mr. A. E. Howse, which was used as a storehouse, was detroyed by fire about three weeks ago. No insurance.

GOLDEN.

Messrs. Slade & Wallinger have secured the contract for packing 20 tons of ore from Vermont Creek claim to Carbonate landing.

Mr. C. C. McKay and brother have received a contract to supply the Upper Columbia Company with 300,000 feet of logs.

Mr. R. Fishburne was here for a day or so last week and said his property on the Fish Creek ledge at Illecillewaet is opening up very satisfactorily.

Mr. Henderson, foreman builder, formerly of Calgary, has decided to make Golden his centre. He has started by importing some good dairy cows.

REVELSTOKE.

The new streets being laid out at the station will be of very great convenience to vehicles. The work is being done rapidly and well.

At a public meeting held last week it was decided to purchase a chemical fire engine, and an order for one was accordingly wired to Toronto.

Mr. H. N. Coursier has just returned from a six days' trip into the Lardeau and Nakusp districts. From Hall's Landing he went by boat up the Arm as far as Thompson's. Mr. Coursier walked over the mountain to Trout Lake, about 12 miles, and arrived there in the evening of the same day he left Revelstoke (Monday). He says a much easier road could be made from Thomson's Landing to Trout Lake by following the creek southward. He visited the big ledge seven miles north of the lake, where Messrs. Walker, Downs, Stauber, McDonald and Holden are working on their claims. They have done all their assessment work and have laid open a magnificent body of galena from 25ft to 30ft. in width the whole length of the claims. Tom Downs' and Pete Walker's claims are somewhat further advanced in development than the others, but as the claims are contiguous a description of these two will suffice for the whole. They are on the mountain side and the cap has been taken off for a distance of about 75 feet from the apex or outcropping of the lode to a plateau at the bottom of the slope exposing a vast quantity of mineral which is nearly solid for the whole of the depth so far uncovered. From this plateau a cross-cut is now being driven to intersect the lode in order to ascertain its thickness, the cross-cut already being in good ore, which is being placed on the dump, and several fine specimens of which Mr. Coursier brought several home with him. They will not be greatly surprised if they find the mineral body extends right through the mountain. They will have no need to begin sinking a shaft just yet, as there are many hundreds of tons of ore already "above ground." Mr. Poole, who is one of the party making the rich strike at the Lardeau forks last month, said he had never seen so much ore in sight in all his experience. It exceeded anything he had ever met with. The question now is how to get this seemingly inexhaustible supply of mineral to the smelter. The cost of getting it out will be trifling, but the expense of carrying it on the backs of pack animals for a distance of between 20 and 30 miles over a rough mountain trail will be too heavy for the boys to think of working the mine themselves, bonanza though it be. It needs capital to place the mineral on the market, but to a man or a company that could "stand the racket" until the sales began to turn in it would be one of the biggest paying investments in the Province. The samples Mr. Coursier brought back with him include a magnificent piece of ore from the Silver Cup, which assays over 2100 ounces of silver to the ton; three different ores from Pete Walker's claim on the big ledge (one piece of rich silver-lead ore, one of low grade galena, and a piece of rock thickly impregnated with gold, copper and iron); and a beautiful specimen of silver ore from the Freddie Lee mine, in the Slocan, which appears to be of the same quality as that from the Silver Cup.

THOMPSON'S LANDING.

J. W. Haskins is getting very good results from the Orphan Boy. He says he will ship ore by pack train to the Arm this fall.

Messrs. Crockett, Robertson and Poole, after spending several days in Revelstoke, arrived down last week. They are well supplied for two months, and are going to go ahead with their assessment work and develope their own mine, as they do not intend to sell, believing they have a fortune right there.

Abrahamson and Langrell are still hard at work developing. The ore body lies about four feet below the surface, and when the cap is removed from the top of the lode they will be able to quarry their ore instead of mining for it.

NAKUSP.

Concerning the prospects of the wagon road being made this fall Mr. Abbott has said that the arrangements with the government were now being concluded, and that in about a fortnight there will be probably over a hundred men started to work on it. Mr. Abbott has been to Nelson to arrange the preliminaries with Mr. Fletcher, the land commissioner.

The townsite is to be enlarged at once. Fifty acres are not enough for this city to spread itself. Mr. Neault, C.P.R. contractor, will have a gang of men at work in a few days clearing ground for new buildings.

Jim Wardner passed through last Monday on his way to New Denver. His mining possessions in the Slocan he considers to be the best he has yet held, and certainly if the ore continues improving at the rate it is now doing he will soon be a Croesus. He is going to start shipping it over the Nakusp trail this week, for which purpose his own train of 60 pack mules will arrive this morning.

FISH CREEK.

Messrs. Ryckman and Scott are pushing their tunnel vigorously, with three shifts of men, eight hour shifts, and are in about 50 feet. They expect to strike the lead in about a month, when great developments are expected. Work on the shaft has been interfered with by water, and work has consequently been discontinued, and all is now being centered on the tunnel.

COAL

The New Vancouver Coal Mining & Land Co., L'd.

(FORMERLY THE VANCOUVER COAL CO.)

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL | THE SOUTH FIELD COAL

(Used principally for Gas and Domestic Purposes). (Steam Fuel).

THE NEW WELLINGTON COAL

House and Steam Coal) are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, high Illuminating Power unequalled by any other bituminous Gas Coal the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used by all the Leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL, which was introduced early in the present year, has already become a favorite coal for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.

SAMUEL M. ROBINS,
Superintendent.

VACCINATION

In order that vaccination may be carried out with dispatch, the medical men of the city have arranged with me to vaccinate all those who are unable to pay free of charge, and that those who can afford to pay, a charge of $1 will be made.

The public vaccinators of the city will vaccinate free all those who are in need of vaccinating.

A certificate of vaccination will be given in every case of where the vaccination has been successful.

G. L. MILNE, M.D., Health Officer.

NOTICE.

All persons leaving the city by train or boat will have to produce a certificate of vaccination, for examination by Dr. Watt, Medical Inspector, or show the marks of recent vaccination, otherwise they will have to submit to vaccination before leaving or they will be treated as suspects.

J. C. DAVIE, M.D.,
jy21 Provincial Health Officer.

FREE VACCINATION.

Persons wishing to be vaccinated may have it performed free of charge by calling upon Dr. Powell, 89 Fort street, or Dr. Milne, 36 Douglas street, between the hours of 10 a.m. to 12 m. and 5 to 6 p.m.

ROBERT BEAVEN,
jy18 Mayor.

NOTICE.

The Corporation of the City of Victoria having adopted free vaccination, within the city, it becomes unnecessay for the Provincial Government to further assume the expense of vaccination. The Provincial notice of free vaccination is therefore cancelled. J. C. DAVIE, M.D.,
jy18 Provincial Health Officer.

TO DEPOSITORS

The British Columbia Land & Investment Agency, Ld.

(SUCCESSORS TO ALLSOP & MASON.)

In view of the low rate of interest given by the Dominion Savings Bank Department, and the restrictions imposed as to the amount to be deposited, this Company is now prepared to receive money on deposit, in large or small amounts, at interest at the rate of 5 per cent. per annum, and on favorable terms as to notice, etc.

The offices of the Company have been removed to 40 Government street, the premises lately occupied by the Telegraph Company.

Dec. 30.

THE SPORTING WORLD.

The James Bay Athletic Club Oarsmen Hard at Work for Their Coming Regatta.

How the Pugilists Are Training for the Coming September Fights.

THE OAR.

A FEW HINTS ON MODERN TRAINING.

This week will be devoted to earnest training by every oarsman in the James Bay Athletic Association who is entered for any event in the annual regatta next Saturday. Nothing else is talked of in the club rooms, and speculation is rife among the clubmen upon the chances, style, form and staying qualities of this, that or the other crew. Never in the history of the club have there been such busy scenes in and about the boathouse, gymnasium, dressing and bath rooms as have been witnessed for the past week or two, every afternoon and evening. The crews who get there first get the boats, the stragglers have to wait forty minutes and "cuss" their luck. All the four-oared crews are now in very fair condition, although "wind" seems to be the quality most complained about among them as a cardinal deficiency. A couple of miles run on the toes in the morning before breakfast is an excellent remedy, and is besides one of the best—in fact, the best of phlegm-eradicators. Modern ideas of training discard the pernicious system of a potion of elixir of vitriol for "cutting" the phlegm. Nothing beats the morning run, and it is besides Nature's own remedy. But don't take the spin on an empty stomach. An excellent thing for "staying" the stomach for such work is a wineglassful of pure water with two or three drops of lemon juice, and a quarter section of a hardtack. Hanlan believes in hearty draughts of milk while training, but although milk is a splendid flesh former and goes to make muscular tissue, not to mention fat, the athlete's *bete noir*, is in the opinion of many first class trainers, and eminent physicians, who take interest in athletic sports, ruinous to "wind." Besides, what would suit Hanlan's magnificent physique, might chance to completely upset the ordinary oarsman. The whole system of modern training "boiled down" to a sentence or a text simply reads: "Moderation in everything." Early to bed and early to rise; plenty of sleep; regular hours for everything; plain, substantial food; under-done steaks, chops and meat; avoidance of the farinaceous or starchy foods, particularly potatoes and rice; hard tack and stale bread are the best for men training; sparing use of all kinds of liquid, especially what are called in sporting parlance, "slops" —tea, coffee, soup, broth, etc. Rigorous exclusion of grease in every form; thorough mastication, and, "last, but not least," hard, earnest, daily work at the specific sport in which the man intends to compete. Training for an amateur boat race is no fun, and most men have not the time to spare in the boat that they should spend there. Real fighting was mere sport to the Spartans after their terrible training; and that possibly accounted for their success for such a long period. Undoubtedly, the man who spends most time in the boat or on the racing path has the best chance of winning. It is almost impossible to do too much practice. The James Bay four oared crews are composed, for the most part, of men who have been in comparatively good training for years and are therefore to be expected to make a very pretty struggle on Saturday. The course will be straight away from the middle of Rock Bay, possibly in front of Spratt's wharf, to the James Bay club boat house. Probably, to avoid the chance of accident in the bridge span, one boat will take the eastern, the other the western span, the distance being practically the same.

WON WITH HANDS DOWN.

The skittish little single-scull skiff owned by the James Bay Athletic Association, and known as the "club skiff," won another victory yesterday forenoon from a fientleman who tried to fool with the laws of gravitation in its company some distance up the Arm. He went out into the water like a Shrove Tuesday pan-cake, turning a spring-back double-flip somersault under the direction of a deft tosser, and fell with a smack in the salt sea. The boat hardly took in a cupful of water, the thing was done so neatly. Fortunately one of the four-oared crews came along and assisted the involuntary acrobat to get back into the oxygen, and then into the skiff. This makes the ninth victory for the little craft, which is ready to take a fall out of the next person that likes to have a try.

The Portland oarsmen, who have been attending the Vancouver regatta, came down last evening. They leave for home to-night.

The managing committee of the James Bay Athletic Association will meet to-night. Several matters pertaining to the coming regatta on the 20th inst., will be considered.

THE RING.

ON THE TAPIS.

It is whispered in certain sporting circles that another glove fight is being arranged between a local pugilist and another from Vancouver, for a "purse." Those who are managing the affair are "keeping it dark," but it is hoped the police will apprehend the whole disreputable gang if any attempt is made to have another of those disgraceful travesties on boxing which have sickened true sport lovers in this community lately. If the principals are of the same calibre as the pairs lately matched there is no danger of them hurting one another, even without gloves.

THE OLYMPIC CLUB'S PREPARATIONS.

NEW ORLEANS, Aug. 15.—No time is being lost by the Olympic Club in making its preparations for the big fights which will take place in its arena next month. The work on the arena is being pushed rapidly, and the additions to the amphitheatre are nearly completed. The big electric clock which was ordered has not yet arrived, but the officials are looking for it every day. It is an absolute certainty that the crowd which will attend these fights will exceed that which has attended any of the noted seasons of carnival given here yearly, and applications for seats have been coming with a rush. The club management are sure of a successful financial termination of the mills, and will do everything in their power to make their guests comfortable. The central office has not yet been opened, but it will be in a day or two, and all applications for information will meet with ready service at the hands of Capt. Williams, whose work as advance representative of the club in arrangements of the fight so far have made him well known to every sporting man in the country.

BETTING ON THE BEANS.

A prominent sporting man who wears a huge waterfall moustache and smokes four-for-a-dollar cigars, and takes deep interest in everything connected with sport, from a Chinese flea battle in the bowl, up to John L. Sullivan and shooting elephants in Africa with explosive bullets, said to a TIMES reporter on Sunday just before church: "My opinion's worth something in regard to pugilism, and I'll tell you what, if that dude from 'Frisco beats John L. Sullivan at New Orleans I'm going to travel as a missionary to the Esquimaux henceforth. I know Sullivan well. He's as much of an animal as I want to see any man. Talk about ugly looks, why, you should see the big Boston bruiser when he gets a hard blow in any of his fights. An enraged tiger's nothing to it. He's a horrible man to go up against in dead earnest, and if I was that pompadour bank clerk, Corbett, I'd dig up a mighty good excuse before I'd set foot in that ring. Of course I may be mistaken. Encounters of that kind are full of chances, slips and accidents; but there's an awful chance the wrong way for Sullivan's opponent. I'm putting all my spare cash on the beans this time. If you've got any don't put it on Corbett, that's the advice of an old sport who has lost and won fortunes in this business."

QUOITS.

Saturday afternoon was lively at Fairbrother's grounds and a number of good games came off. Wm. Gordon rather distinguished himself throughout. The recent rains will do considerable good to the grounds and make it much cooler for the players in the coming week. A very novel quoit game will be played about the middle of the week and duly announced.

LACROSSE.

The second teams of the home and Vancouver teams are endeavoring to arrange for a match to be played here next Saturday. In consequence players outside the first team will be out for practice to-night. The next general practice will be held Wednesday night.

During the progress of the match on Saturday a great many spectators were annoyed by hoodlums throwing uncomplimentary remarks at the players of the visiting team. In future special constables will be provided to deal with those parties.

A meeting of the executive of the Lacrosse Club was held at 4 o'clock this afternoon for the purpose of considering the proposition to hold a lacrosse tournament in Winnipeg.

THE GUN

The members of the Union Gun Club had a shoot on Saturday for the Hamilton Powder Company's medal. Several members of the Victoria club also shot, but not for the medal. The following was the score:

UNION GUN CLUB.	1ST 25.	2ND 25.
J. M. Langley	14	16
B. H. John	15	10
J. McR. Smith	8	12
W. H. Adams	14	14
C. W. Minor	20	21
F. S. Maclure	20	21
J. C. Maclure	14	17
VICTORIA GUN CLUB.		
H. N. Short	19	22
J. W. Switzer	21	15
R. Jackson	15	18
A. Dollary	9	10

Shoot off—10 birds.

F. S. Maclure	8
C. W. Minor	9

THE WHEEL.

The regular fortnightly handicap races of the Wanderers' Bicycle club will be held to-morrow evening at the Driving Park, beginning at 7:30 o'clock. A good attendance of wheelmen, at least, is expected.

CRICKET.

The Albion team defeated a team from the B.C.B.G.A. by 50 runs to 44.

MISCELLANEOUS.

BIG CROQUET TOURNAMENT.

NORWICH, Vt., Aug. 15.—The biggest croquet tournament ever held opened here to-day, and is being played on the finest grounds in the country. There are ten courts in the new grounds, levelled with as much precision as the bed of a billiard table and almost as hard, and each surrounded with elastic side cushions. They are constructed in the most finished and scientific manner, and are equipped with an ingenious and perfect system of drainage, consisting of an elaborate net-work of underground pipes and surface gratings. The grounds will be lighted by electricity and the playing continue until 12 o'clock. The players have been divided into four divisions, the prizes to be awarded in each division being of equal value and very handsome. Almost all of the well known veterans of the mallet are present, including Jacobus, Maurer, Reed, Strong, Bishop, Dickey, Spalding and Harland.

CANOE RACES.

LAKE CHAMPLAIN, N.Y., Aug. 15.—The annual races of the American Canoe Association began to-day and will continue until the 20th, and include eighteen separate events. The association was formed in 1880, and now comprises over 150 clubs either wholly or in part devoted to canoeing. The meet commenced on the 4th, but it has only been during the past few days that there has been anything like a full attendance. The association is divided into four divisions, the Western, Northern including Canada, the Atlantic and the Central. It is probable that a Southern and Pacific division will soon be formed.

A Man With a Midas Touch.

If the current report is true that Baron Maurice de Hirsch is soon to make a tour of this country his visit should arouse unusual interest, for as millionaire, philanthropist, sportsman, and financier the baron is more than a remarkable man. He is in many respects the man of his time, homme du siecle, as his French admirers style him. Everything that he has touched has turned into gold, so that he has long been the rival of the Rothschilds in wealth. One case in point of his Midas touch was the purchase at a small price of the depreciated assets of a bankrupt Belgian bank and the subsequent realization from them of $4,000,000 of profits. The baron first became known on this side of the water in the somewhat dubious role of intimate of the Prince of Wales. Next after that his enormous gifts to charity, amounting in 1891 to $15,000,000, awakened the interest of three continents. The Baron is noted in Europe for his chivalry, and the story of his quarrel with a Paris club, though told long ago, is timely now. When the Baron and another Hebrew, who was his enemy's son, were blackballed for membership in the club, Baron Hirsch bought the building for a sum much in excess of its value. The club committee, loath to leave their old quarters, offered to elect him if he would relinquish his bargain. His reply was characteristic: "Keep you club but elect a Hebrew. I name the gentleman who was blackballed in my company." The club accepted the terms, and the man whose election was thus singularly brought about is still on its list of members.—New York World.

NEW ADVERTISEMENTS.

VICTORIA, Aug. 12, 1892.

Messrs. Heisterman & Co., Victoria, B.C.

GENTLEMEN.—I am in receipt of your cheque in payment of insurance held in the Western Insurance Co. upon supplies contained in the storehouse, and damaged in the fire of the 7th instant, and have to thank you for the prompt and honorable manner in which settlement was made, it being the first payment of loss made on this fire. Yours faithfully,

F. H. OSGOOD,
1t Manager Lighting Dept., N.E.T. & L. Co.

To Morris Moss, of Victoria, Merchant.

TAKE NOTICE that on the 15th day of August, 1892, an action was commenced against Charles Spring, of the city of Victoria, and you, in the Supreme Court of British Columbia, wherein the Ames Holden Company, Limited, and A. C. Flumerfelt are Plaintiffs, and Charles Spring and you, the said Morris Moss, are Defendants, to recover the sum of $460, being the amount due from you to the Plaintiffs on two promissory notes, both dated the 16th day of April, 1892, together with interest thereon and protest fees. And further take notice that by an order dated the 15th day of August, 1892, made in the said action by the Honorable Henry Pering Pellew Crease, a Judge of the Supreme Court of British Columbia, it was ordered that service of a copy of the said order and a copy of the writ of summons in this action upon your wife, or if your said wife could not be found in the city of Victoria, by inserting an advertisement of the commencement of this action and a notice of the said order in the Daily TIMES newspaper three times from the date of the said order, such advertisement to contain a notice that you, the said Morris Moss, are required to appear to the said writ of summons within eight days from the date of such service on your wife, or from the date of such last insertion in the said newspaper, otherwise the said action should proceed against you, should be good and effective service of the said writ of summons upon you.

You are therefore required to appear to the said writ of summons within eight days from the date of such service upon your wife as aforesaid, or from the date of such last insertion in the said newspaper, by entering an appearance, either personally or by solicitor, at the office of the Registrar of the Court at Victoria, otherwise the Plaintiffs will proceed with the said action against you and judgment may be given in your absence.

Dated the 15th day of August, 1892.

D. M. EBERTS,
(of the firm of Eberts & Taylor),
30 Langley street, Victoria,
